
AUSTRIA 2003

1. Overview of the system

Austria's unemployment insurance benefits are related to previous earnings subject to a maximum of 55 per cent of the net-earnings level and are paid for up to one year. UI assistance benefits also based on previous net income in work may then be paid. A universal assistance benefit provides a safety net for all adult inhabitants. The tax unit is the individual. In 2003, the average worker earned EUR 32 288.

2. Unemployment insurance

2.1 *Conditions for receipt*

2.1.1 *Employment conditions*

To qualify, workers must have worked at least one out of the last two years.

2.1.2 *Contribution conditions*

Unemployment insurance is compulsory for dependent workers but only up from a monthly earning of EUR 309.38 (*Geringfügigkeitsgrenze*). UI insurance is not for civil servants and not for self employed. To qualify, workers need to have contributed one year. Only 28 weeks suffice in case of repeated spells of unemployment. This condition coincides with the employment condition.

2.2 *Calculation of benefit amount*

2.2.1 *Calculation of benefit*

Benefits are defined as a percentage of after tax income: 55 per cent of the average net reference income over a year (we call this the basic amount). The total benefits may not exceed 60 per cent of reference income (80 per cent if dependants) for low income: for people with low net reference earnings, there is a supplement (*Ergänzungsbetrag*). If the basic amount is below 55 per cent of the supplementary pension amount for a single person (*Ausgleichszulagenrichtsatz*, see 3.2.1) then the replacement rate is 60 per cent instead of 55 per cent in the case of no dependants and 80 per cent instead of 55 per cent for benefit recipients with dependants.

Maximum monthly earnings for the purpose of calculating the maximum benefit amount are EUR 3 139.47, which result in a maximum benefit of EUR 36.74 per day. Note that the cap of the contribution-base to the UI-fund is at EUR 3 360. The daily benefit is increased by EUR 0.97 per

dependent (family supplement). For benefit recipients who qualify for the *Ergänzungsbetrag*, total unemployment benefit after *Ergänzungsbetrag* and family supplements may not exceed the supplementary pension amount (*Ausgleichszulagenrichtsatz*). For the purposes of this publication, “net income” is defined as gross earnings minus income tax, minus social security contributions minus work-related expenses.

2.2.2 *Income and earnings disregards*

The basic benefit is not affected by the beneficiary’s own work related earnings as long as they do not exceed EUR 309.38 per month. Earnings from work above this level generally results in the total loss of all benefit entitlements. There is however an exception: if the recipient works not more than 16 days within a month as well as if the net earning within this month is less than the maximum UI benefit, UI benefit is reduced instead of total loss.

Income from other sources (rent, interest etc.) do not affect UI benefit.

2.3 *Tax treatment of benefit*

Benefits are tax-free.

2.4 *Benefit duration*

Benefit is payable 7 days per week immediately upon entry in unemployment, without a waiting period. The total duration is 20 weeks or more, depending on the employment record, with ceilings depending on age:

- 30 weeks after 156 weeks of work in 5 years.
- For 40-49 year-old recipients: 39 weeks after 312 weeks of work in 10 years.
- For recipients aged 50 and above: 52 weeks after 468 weeks of work in the last 15 years.

The benefit duration can be increased up to 156 weeks or up to 209 weeks for workers participating in specific labour market policy activities (*Arbeitsstiftungen*).

2.5 *Treatment of particular groups*

2.5.1 *Young persons*

For persons under 25, under certain conditions a 26-week employment record is sufficient to qualify for their first UI benefit (the condition is, that it was not possible for the Public Employment Service to end the unemployment spell by integrating them in the labour market or to send them to a training within 4 weeks).

2.5.2 *Older workers*

See 2.4 above.

Furthermore the maximum duration of benefit is 78 weeks for men born in the year 1940 or 1941 and for women born in 1945 or 1946, but only if they have worked 780 weeks within the last 25 years.

3. Unemployment assistance (*Notstandhilfe*)

3.1 *Conditions for receipt*

The benefit is only payable after exhaustion of UI benefits and if the person is in need/poverty.

3.1.1 *Employment conditions*

None.

3.1.2 *Contribution conditions*

To qualify, workers must have already received UI benefits.

3.2 *Calculation of benefit amount*

3.2.1 *Calculation of benefit*

The benefit amounts to 92 per cent of the previous *basic* UI benefit or 95 per cent for low income groups, i.e., persons whose *total* unemployment insurance benefits were less than EUR 643.54 per month (this amount is the standard value for the supplementary pension, the so called *Ausgleichszulagenrichtsatz*). Family supplements as described in section 2.2.1 above are paid on top of that.

3.2.2 *Income and earnings disregards*

Benefit is not affected by other income or earnings of the spouse not exceeding EUR 437 per month. This exemption limit is raised by EUR 218.50 for each child. Any net income of the spouse above that amount reduces unemployment assistance.

The benefit is not affected by the beneficiary's own work related income as long as this income does not exceed EUR 309.38 per month; earnings from work above this level generally results in the total loss of all benefit entitlements. There is however an exception: if the recipient works not more than 16 days within a month as well as if the earning within this month is less than the maximum UA benefit, UA benefit is reduced instead of total loss.

Income from other sources (rent, interest etc.) do affect UA benefits.

3.3 *Tax treatment of benefit*

Benefits are tax-free.

3.4 *Benefit duration*

Indefinite, as long as recipients qualify.

3.5 *Treatment of particular groups*

Disregards concerning spouses' incomes are higher for older UA-recipients, but only if they have a longer contribution time. For recipients over the age of 50 the exemption limit is EUR 874 (and in

addition EUR 437 for each child), for recipients older than 55 it is EUR 1 311 (additional EUR 655.50 for each child).

4. Social assistance

Two forms of assistance benefits exist: general assistance (*Sozialhilfe*) and supplementary pension (*Ausgleichzulage*), the latter is only paid to age pensioners or other persons incapable of working and is therefore not considered.

4.1 Conditions for receipt

No age limit

4.2 Calculation of benefit amount

4.2.1 Calculation of gross benefit (2003 rates)

Provinces vary eligibility conditions and payment rates; the execution of rules is not uniformly agreed but depends heavily on the discretion of the social welfare agency.

Monthly rates in EUR 2003

Family type	Carinthia	Upper Austria	Vienna	Average
Single person	398.00	506,40	390.33	431,58
Couple	568.00	733,80	576.02	625,94
Dependent child	119.00	140,80	117.03	125,61

Remarks:(1) The former rate in the table for Upper Austria was not the rate for a **typical** single person living alone. It was the rate designed for a single person living in a household with others to whom he or she is not entitled to maintenance (eg. sisters).(2) The rates do not include the benefits for housing which vary from province to province.

4.2.2 Income and earnings disregards

Entitlements depend on household resources rather than those of the individual or nuclear family. Officially other relatives have a duty under family law to provide financial support. If circumstances allow, the benefit must be repaid after the recipient has left social assistance. In this report, all resources are considered in the means and income test apart from family benefits.

If household income is below the social-assistance threshold irrespective of reason (low unemployment benefit, low wages whatever) people concerned are entitled to a “top-up” social assistance.

4.3 Tax treatment of benefit

The benefit is not taxable.

4.4 Benefit duration

As long as the social administration considers that the household is eligible.

4.5 Treatment of particular groups

4.5.1 Young persons

None

4.5.2 Older workers

None.

5. Housing benefits

The costs can be covered by social assistance and also by other schemes. Because the treatment of housing costs varies widely geographically, we take Vienna as an example.

The rent assistance for people receiving social assistance in Vienna is called “**Mietbeihilfe**”. Its amount depends on the number of persons concerned and the number of square metres of the flat.

In addition to the "Mietbeihilfe" for SA recipients, there exists a "Wohnbeihilfe" and a "Mietzinsbeihilfe". See Annex A and B.

“**Wohnbeihilfe**” (granted by the City of Vienna) depends on the type of housing, this means that there are differences according to housing in

- subsidised built houses
- subsidised renovated houses
- privately rented, non-subsidised built or renovated houses – called “Allgemeine Wohnbeihilfe”

According to the OECD demand, only the “Allgemeine Wohnbeihilfe” is shown:

5.1 Conditions for receipt

"Mietbeihilfe":

Not defined.

“Wohnbeihilfe”:

- Only for persons with Austrian nationality, persons equal in law and foreigners with a legal stay in Austria for more than five years

- In addition, a net-income per month is required, at least
 - for one person EUR 619.26,
 - for two persons EUR 929.32,
 - per child EUR 65.92 .

No “Wohnbeihilfe” is paid to owners of flats and tenants with family relationships to lessors.

5.2 *Calculation of benefit amount*

No age limit

5.2.1 *Calculation of gross benefit*

The amount depends on the rent per month, the income per month, the number of the people living in the household and the size of the flat.

“Mietbeihilfe”:

„Dauerleistungs-Richtsatz“ (basic amount for the calculation)

- for one person EUR 607.26 per month
- for couples EUR 866.38 per month

plus the rent per month

minus possibly granted “Wohnbeihilfe” and/or “Mietzinsbeihilfe”

minus the income per month

minus „Durchschnittlicher Mietbedarf“ (EUR 64.98 per month)

Maximum amount of “Mietbeihilfe” per month:

Maximum amount of rent assistance for people receiving social assistance in Vienna

Monthly rates		
Persons	Square metres	Maximum amount in EUR
1 or 2	Up to 50	242.36
3 or 4	Up to 70	256.65
5 or 6	Up to 90	279.98
7 and more	More than 90	303.31

In addition, every household concerned can get EUR 67.24 heating assistance (from October to April).

“Wohnbeihilfe”:

The difference between “Anrechenbarer Wohnungsaufwand” (countable housing expenditure) and “Zumutbarer Wohnungsaufwand” (reasonable housing expenditure) is paid as “Wohnbeihilfe” (more details about the calculation of the “Allgemeine Wohnbeihilfe” see Annex B).

5.2.2 *Income and earnings disregards*

See section 4.2.2.

5.3 *Tax treatment of benefit*

The benefit is not taxable.

5.4 *Treatment of particular groups*

The family income as basis of the “Zumutbarer Wohnungsaufwand” is reduced per 20 % in favour of families in special situations:

- families with all members under the age of 40,
- families with one child under the age of six,
- families with a member that is handicapped at least 45 %,
- families with at least three children,
- families with a handicapped child and
- single parent families, not remarried or in a similar partnership.

6. **Family benefits**

6.1 *Conditions for receipt*

Family benefits are paid only to families with dependent children.

6.2 *Calculation of benefit amount*

The per capita amounts are differentiated to age groups.

6.2.1 *Calculation of gross benefit*

The family benefits differ by the age and the number of children: EUR 105.40 monthly up to the age of 3, EUR 112.70 up to the age of 10, EUR 130.90 up to the age of 19 and EUR 152.70 up to age 26/27 for students and children in vocational training. There is a child benefit supplement if there is more than one child: EUR 12.80 per month for the second child and EUR 25.50 for the third child and additional ones. There is a further increase of EUR 36.40 per month for the third child and additional ones if household taxable income is below the limit EUR 40 320 per year. Beside these family benefits all families also receive EUR 50.90 per month for each child as a negative tax. (Although the source for this benefit is the tax system it can be characterized as a social benefit, since all families - including families who pay no taxes – are entitled to it.).

6.2.2 *Income and earnings disregards*

Child benefits are not subject to any means test.

6.3 *Tax treatment of benefit*

Family benefits are not taxable.

6.4 *Treatment of particular groups*

Handicapped children entitle families to increased benefits (plus EUR 131).

7. **Childcare benefits**

Childcare allowance 2002 – 2003

For births in the period as from 1 January 2002, the parental leave allowance and the part-time allowance are replaced by the childcare allowance (*Kinderbetreuungsgeld – KBG*).

Childcare allowance is received by all mothers/fathers (also adoptive or foster parents), regardless of whether they were in employment before the birth, and is thus also available to housewives, students etc. There only needs to be an entitlement to family allowance (*Familienbeihilfe*) and the parent claiming has to live in the same household as the child.

If neither of the parents are entitled to family allowance, childcare allowance can still be claimed if certain insurance contribution periods have been fulfilled due to employment.

Childcare allowance amounts to EUR 14.53 per day (around € 436 per month) and is paid out from the birth of the child until the child is 36 months old (maximum duration). If only one parent claims child care benefit, the claim ends when the child is 30 months old at the latest.

Only half (EUR 7.27 per day) of the normal amount of childcare allowance is paid from the 21st month onwards if the five examinations during pregnancy and five examinations of the child as planned in the mother-child pass programme have not been carried out.

Proof that the examinations have been carried out has to be provided to the relevant health insurance fund before the child is 18 months old at the latest. If this deadline is missed, only half of the allowance amount will be paid.

If the examinations are not or only partly carried out for reasons for which the parents are not responsible (e.g. adoption), the amount paid out is not reduced.

Lone parents and married couples (or partners) on low incomes can apply for a supplementary payment to child care benefit amounting to EUR 6.06 per day. During the period in which a supplementary payment is drawn, up to EUR 3,997 can be earned additionally.

If this ceiling on additional earnings is exceeded, the total amount of supplementary payments made by the health insurance fund in the respective calendar year has to be returned

If the above-mentioned ceiling on earnings is not exceeded, the supplementary payment becomes a type of “loan”, which has to be paid back as soon as the recipient’s income exceeds a certain level. This repayment is technically a tax, which is levied by the tax office responsible for the recipient's area of residence. In the case of lone parents, there is obligation to repayment from an income of EUR 10,175, for married couples from a total income of EUR 25,440.

Childcare allowance cannot be claimed while there is entitlement to maternity allowance. However, if maternity allowance is lower than childcare allowance, there is an entitlement to a supplementary amount up to the level of childcare allowance.

Childcare allowance is only paid for the youngest child. If a further child is born while childcare allowance is being drawn, entitlement for the older child ends with the birth and childcare allowance is then received for the newly-born child.

Additional earned income of up to EUR 14,600 annually are permitted while childcare allowance is being drawn (the income raise doesn’t include tax free income). Only the earnings of the parent claiming childcare allowance are taken into account. If the ceiling on additional earnings is exceeded, the total amount of childcare allowance drawn in the respective calendar year has to be returned. It is however possible to waive the right to parts of child care benefit. This type of waiver can however only be made in advance and for whole calendar months.

It is not possible for both parents to draw childcare allowance simultaneously. In case of doubt, the parent who looks after the child more often has priority. The parents can change over twice when drawing childcare allowance, i.e. there can be a maximum of three different claim periods, of which one period has to be at least three months long.

Childcare allowance and the supplementary payment to childcare allowance are only paid out upon application, which has to be made to the relevant health insurance fund.

The parent drawing childcare allowance is covered by health insurance for this period.

The relevant health insurance fund is the one which the person entitled to claim benefit is insured with, or was last insured with (otherwise the regional health insurance fund).

If the application for childcare allowance is made late, payment can only be backdated for a maximum of six months.

Transitional arrangement for births between 1.7.2000 and 31.12.2001

If the child was born in this period, and the parents are entitled to parental leave benefit or part-time allowance, the parental leave benefit or part-time allowance is increased from 1.1.2002 to

EUR 14.53 per day (around € 436 per month) and the entitlement period is extended until the child is two and a half or a maximum of three years old. From 1.1.2002, the ceiling on additional earnings of EUR 14,600 per year is valid.

If part-time parental leave benefit or part-time allowance are drawn, additional earnings continue to be unrestricted if only half the payment amount is drawn (EUR 7.27 per day).

However, this possibility is only available for births until 31.12.2001.

8. Employment-conditional benefits

Not defined.

9. Lone-parent benefits

See section 3.5 and the footnote to section 10.1.4.

10. Tax system

Income concept: apart from 12 current monthly payments, Austrian employees usually receive two bonuses of the same amount. Whereas current payments are taxed according to the income tax schedule, there is a special favourable schedule for non-current payments (13th and 14th salary).

10.1 Income tax rate schedule

10.1.1 The definition of taxable income

The tax schedule is applied to current income minus tax allowances. The taxation is different for current income and for non current income.

10.1.2 Tax allowances

Tax allowances:

- Basic allowances to employees amount to EUR 60 per person working. These allowances are income tested and diminish by 0.41 per cent of the working person's earnings over EUR 36 400.
- Work related expenses are deductible as a lump sum of EUR 132.
- Social security contributions are deductible in their entirety.
- 2 per cent of gross earnings can be deducted as not taxable income.

10.1.3 Tax schedule

The calculation rules for the general tax credit imply two effective tax rate schedules for employees:

Without sole earner's (parent's) tax credit		With sole earner's (parent's) tax credit	
Bracket (EUR)	Rate (%)	Bracket (EUR)	Rate (%)
3 640	0	3 640	0
7 270	21	6 177	21
8 866	31	7 270	56.2
9 811	43.3	8 357	18.9
10 901	22.4	9 920	0.1

14 535	32	10 901	43.9
18 168	35	11 301	63.8
21 800	32.9	14 535	31.9
35 421	45.5	18 168	35
50 870	41	21 800	32.9
Above	50	35 421	45.5
		50 870	41
		above	50

10.1.4 Tax credits

- General tax credit EUR 887 (reduced to zero for income above EUR 35 421).
- Wage earner's tax credit of EUR 54 (possible as negative tax up to EUR 110 or 10 per cent of social security contributions).
- Wage earner's traffic tax credit of EUR 291.
- Sole earner's tax credit of EUR 364¹, ceases if the spouse's current income after allowances exceeds EUR 2 200 or EUR 4 400 if dependent children. If there are children, this tax credit can be paid out as a negative income tax.
- Children's tax credit EUR 610.80 per child.

Notes on Negative Credits:

The formula for calculating the final "Net tax on current income" is: first, intermediate tax on current income (ITCI) is calculated as Gross Tax on current income minus some credits (general tax credit, sole earner's credit, wage earner's credit and wage earner's traffic credits). Then:

- If ITCI>0, Net tax on current income is equal to ITCI.
- If ITCI<0, Net tax on current income is the maximum of:
 - ITCI.
 - - 0.1 * Employee's SSC – (Sole earner's tax credit if there are children).
 - - 110 – (Sole earner's tax credit if there are children).

10.1.5 Taxation on non current income

A special rate of tax of 6 per cent applies to non-current income. This non-current income is limited to 1/6 of the current income. An amount of EUR 620 of these bonuses is tax free. If these bonuses are below EUR 1 680 per year, no tax is deducted. Above this amount, the tax applied is the minimum between 30 per cent of bonuses above EUR 1 680 and 6 per cent of the total of the bonuses.

10.2 Treatment of family income

The tax unit is the individual.

1. A lone parent may receive a tax credit (non-wastable) at the same rate as the "sole-earner" tax credit.

10.3 Social security contribution schedule

Monthly ceilings in EUR

Scheme	Rate(%)	Earnings ceiling	Christmas and leave bonus ceiling
Health insurance	3.95	3 360	6 720
Unemployment insurance	3.00	3 360	6 720
Pension insurance	10.25	3 360	6 720
Contribution to labour chamber	0.50	3 360	0
Contribution to promotion of residential building	0.50	3 360	0

Note: Salaries below EUR 309.38 per month do not pay social security contributions.

11. Part-time work

11.1 Special benefit rules for part-time work

None.

11.2 Special tax and social security contribution rules for part-time work

None.

12. Policy developments

12.1 Policy changes introduced in the last year

Not defined.

12.2 Policy changes announced

Not defined.

Steuerreform 2004 ist bereits in Form des Taxing Wages-Modells an die OECD gegangen. Steuerreform 2005 gehört wahrscheinlich noch nicht hier her.

ANNEX A

Mietzinsbeihilfe

(granted by the government of Austria)

5.1 Conditions for receipt

- Only for main tenants,
- in case of an increased rent according to the renovation of the house and
 - on basis of the decision of a Court/a municipal authority
 - on basis of a higher “Erhaltungs- und Verbesserungsbeitrag” (maintenance and improvement contribution).
- Only when the rent is increased more than EUR 0.33 per m² or at least quadrupled
- The net-income of all members of the household per year is allowed to be
 - EUR 7,300.00 for one person,
 - plus EUR 1,825.00 for a second person and
 - plus EUR 620.00 for every further personat maximum.

No “Mietzinsbeihilfe” in case of a voluntarily negotiated increase of the rent.

5.2 Calculation of benefit amount

The increase of the rent according to the renovation – as shown in C) 5.1 – is paid as “Mietzinsbeihilfe”.

5.3 Tax treatment

The benefit is not taxable.

5.4 Treatment of particular groups

ANNEX B

Wohnbeihilfe

Calculation of the “Allgemeine Wohnbeihilfe”

(in privately rented, non-subsidised built or renovated houses)

The difference between “Anrechenbarer Wohnungsaufwand” (countable housing expenditure) and “Zumutbarer Wohnungsaufwand” (reasonable housing expenditure) is paid as “Wohnbeihilfe”.

“Anrechenbarer Wohnungsaufwand” (countable housing expenditure):

This means the legally permitted rent laid down in the lease contract;

- in case of a tenancy for an indefinite period and Category A flats - EUR 4.32 per m² at maximum,
- in case of a tenancy for a definite period and Category B flats - EUR 3.24 per m² at maximum,
- **IN CASE OF CATEGORY C+D FLATS - EUR 2.16 PER M² AT MAXIMUM.**

“Zumutbarer Wohnungsaufwand” (reasonable housing expenditure):

According to the family net-income of all members living in the common household (1/12 of their net-incomes p.a.) and the number of these members.

The following tables show the corresponding “Zumutbarer Wohnungsaufwand”

Abbreviations:

EK ... “Einkommen” ... net-income of all members living in the common household per month

ZWA ... “Zumutbarer Wohnungsaufwand” ... reasonable housing expenditure

A household with 1 person
