1. Overview of the tax-benefit system

National Insurance

The National Insurance Institute of Israel (NII) is the national institution of social security, operating under the National Insurance Law passed by the Parliament in November 1953.

The main role of the NII is to ensure a means of subsistence to those Israeli residents who cannot earn a living on their own. The NII is the main instrument for reducing poverty; it contributes substantially to the reduction of economic gaps in Israel and guarantees social and economic protection to every resident and family at times of temporary or prolonged distress. The social security is provided by means of about a hundred different benefits paid by the NII to persons entitled to them under the law, as well as by means of rehabilitative and social services.

The NII collects insurance premiums, or contributions, from all residents aged 18 or over in accordance with their income (from wages or other sources) and status: employer, employee, self-employed or non-working. In addition, as of January 1995, the NII is responsible for collecting health insurance contributions under the National Health Insurance Law and distributing them to the various sick funds.

All residents of Israel are covered by the NII, and the main social security benefits paid may be divided into the following categories:

1. Benefits given due to physical (health) condition: Long-term care, Disability, Mobility, Work injury, Accident injury, Hostile action casualties, Domestic violence, Radiation, Transfusion-acquired HIV, Polio victims;
2. Benefits given due to employment condition: Income support, Unemployment; Rights of volunteers;
3. Benefits given due to family situation: Survivors, Alimony, Children, Maternity;
4. Other benefits: Old age, Prisoners of Zion and Martyrs, Righteous gentiles, Reserve service, Bankruptcy or Liquidation of companies.

This document does not refer to all the above benefits, but rather only to those relevant to the questionnaire.

General information:

1. Basic amounts:

As of January 2006, most national insurance benefits, the value of which had been frozen in the framework of the Economy Arrangement Laws for 2002 and 2003, again became adjusted. However, from this date they are calculated according to the *basic amount*, rather than according to the average wage, as previously. The basic amount is updated on the 1st of January of every year at the rate of the rise on the cost-of-living index in the previous year. The basic amount is actually composed of three different sums for the various types of benefits, and was increased by 2.7% in January 2006.

In January 2016 the sums are:

Reference date for all information is **July 1st 2016**

Country chapter for OECD series *Benefits and Wages* (www.oecd.org/els/social/workincentives)

Basic amount [1]	Basic amount [2]	Basic amount [3]
NIS 8,757	NIS 150	NIS 8,648
Death grant	Child allowance	Other benefits Calculation of maximum income for purposes of collection of contributions
Bar Mitzvah grant	NIS 180	
Long-term care benefit	Child allowance	
General disability pension		
Birth grant	NIS 140	
Maternity allowance	For Income Support benefit	
Work injury benefit		
Accident injury allowance		
Volunteers' benefit		

1. Average wage:

The reference in this document is to average wage according to Article 2 of the National Insurance Law for calculating parameters of benefits and collection.

In **January** 2016 this average wage is NIS 9,464.

Using version of ISIC 3, B-I industries (the very close equivalent of C-K industries in ISIC 3.1), in that year, the average worker in Israel earned NIS 9363 per month (annual amount: NIS 112,356).

1.1. *Average Worker's wage (AW)*

In 2016, the Average Worker (AW) wage was NIS 142 247 (Secretariat estimate).

2. Unemployment benefits

Every Israeli resident who is an employee, at the age of 18 or over and under the *retirement age* as defined by law, is covered in unemployment insurance.

There is a monthly unemployment benefit, as well as a few grants given to special groups. There are specific conditions for receiving those grants, detailed as “particular groups” in each chapter.

The grants given are:

- Person working in low wages
- Person in vocational training.
- Daily unemployment benefit to unemployment person referred to working at “*unsuitable*” work

General definitions:

Work is considered ***suitable work*** if it meets these 3 conditions:

- a) A type of work at which the unemployed person worked in the 3 years preceding his unemployment, or any other work suiting the persons professional training, education level and health condition;
- b) The wages of the work offered are at least equal to the unemployment benefit which would be due to him, were he entitled to it;
- c) The work offered does not require a change in residence (according to the rules which have been determined).

Determining date: The 1st of the month in which the unemployment period began, on condition that at least 12 months have elapsed from the first of the month in which the previous unemployment period began.

Program name in local language		דמי אבטלה (יומיים)
Insurance is voluntary(V) or compulsory(C) for employees		C
Employment record (E) and contribution (C) conditions		E + C: 12 in 18 proceeding months
Waiting period (days)		5
Maximum duration (months)		175 days with at least 3 dependents, 138 days with less children
Uprating mechanism of the benefit		...
Calculation of unemployment insurance benefit:	initial benefit as % of calculation base	80% (35%) for lowest (highest) prior gross wage income, for first 125 days, subject to a maximum of 370.40 per day (defined daily average wage)
	benefit at the end of legal entitlement period in % of calculation base	As initial amount, except from day 126 the daily benefit may not exceed 246.93 per day (2/3 defined daily average wage)
	Calculation base	Gross
	Permitted employment and disregards when receiving unemployment insurance benefit	For current earnings below reference earnings: benefit is difference between current earnings and 75% of reference earnings
Benefit provision (eligibility (E), generosity (G)) varies with	age	G: - duration for <28 years, + duration for 45 or older
	family situation	G: + longer maximum duration if 3 or more dependents
	contract type	0
	other	0

2.1 Conditions for receipt

- Registration at a labour exchange as lacking work, and being ready and able to work at any *suitable work*, and the labour exchange has not offered such work;
- Age 20 to *retirement age*;
- Fulfilment of a minimum period of insurance.
- Person working at low wages:

Reference date for all information is **July 1st 2016**

Country chapter for OECD series *Benefits and Wages* (www.oecd.org/els/social/workincentives)

- An unemployed person.
 - Was referred to work at wages lower than unemployment benefit due to him
 - Worked at this work for at least 25 days
 - Did not use up the maximum period for payment of unemployment benefit
- A person in vocational training

2.1.1 *Employment conditions*

- Unemployment benefit qualifying period is 12 work months for which insurance contribution were paid out of the 18 months prior to *determining date*

2.1.2 *Contribution conditions*

Insurance contributions:

	<u>Full rate</u>	<u>Reduced rate</u> ¹
Employee	0.21%	0.01%
Employer	0.16%	0.03%
Government:		
For employee	0.06%	0.06%

The Ministry of Defense finances the cost of the unemployment benefit to *demobilized soldiers* released from the standing army.

In Israel young people at the age of 18 must serve in the Israeli Defense Forces (IDF). The duration of service is at least 2 years. According to the *Demobilized Soldiers Law*, soldiers released from the army, after fulfilling their army duties, are entitled to several benefits. Those benefits will usually be detailed in this document as “particular groups” at each chapter.

All income of workers, including convalescence grant, vehicle maintenance and telephone expenses, is liable for insurance contributions.

Insurance contributions are paid on income that is not higher than the ceiling that has been determined. The monthly income ceiling for contribution purposes is equal to five times the *basic amount* [3] (basic amount: NIS 8,648), for all insured person and employers (NIS 43,240 per month).

2.2 *Calculation of benefit amount*

2.2.1 *Calculation of gross benefit*

The benefit is calculated on the basis of daily average wage of the unemployed person during the last 75 workdays of qualification period. For the first 125 days of payment in the unemployment year, the daily unemployment benefit may not exceed the daily average wage. Beginning with the 126th day of payment, the daily unemployment benefit shall not exceed 2/3 of the daily average wage.

¹ Reduced rates of insurance contributions are paid on the share of income that is up to 60% of the *average wage*. The regular rate is paid on the remaining share of income.

January 2016

Gross salary subject to insurance contributions (NIS)		Unemployment Benefit, for those aged 28 or over			Unemployment Benefit, for those below the age of 28		
Monthly	Daily	per day (NIS)	per month (based on 25 days)	as % of salary	per day (NIS)	per month (based on 25 days)	as % of salary

25,000	1,000	386.92	9,260	37%	332.18	8,305	33%

* Maximum daily unemployment benefit – NIS 370.40 for the first 125 days of payment.

As of the 126th day of payment, the maximum is NIS 246.93.

- Person working at low wages: payment calculated for every day at the rate of the difference between actual wage and 75% of the wage, which served as the basis for calculating the unemployment benefit.
- A person in vocational training. An amount equivalent to the difference between the payment given him during training, and 70% of the unemployment benefit to which he would have been entitled had he been unemployed.
- Daily unemployment benefit to unemployment person referred to ones working at "unsuitable" work: Payment at the rate of the difference between the average daily income from the work and an amount equivalent to the unemployment benefit or an amount equivalent to 75% of the average daily wage which served as the basis for calculation of the unemployment benefit – if the latter difference is higher.

2.2.2 *Income and earnings disregards*

For a person receiving an old-age pension, the entire pension is deducted from the unemployment benefit due to him.

2.3 *Tax treatment of benefit and interaction with other benefits*

The income taxes on the unemployment benefit are at the rate of the parallel income amount received from work.

National Insurance is deducted from this benefit at the minimum rate of NIS 21 per month (as of 1.1.2015).

Health insurance is deducted from this benefit at a rate equivalent to that deducted from income from work.

2.4 *Benefit duration (maximum)*

- 175 days for an unemployed person aged 35 to 45 with at least 3 dependents;
- 138 days for an unemployed person aged 35 to 45 with less than 3 dependents.

Within a 4-year period, an unemployed person under the age of 40 shall not be paid an unemployment benefit for a period exceeding 180% of the maximum period to which he is entitled. The rate of the unemployment benefit for additional period (beyond 100% of the maximum period) shall not be over 85% of the maximum daily unemployment benefit.

- Person working at low wages the grant is paid for the maximum period of 150 work days, in 2 payments: the first after 75 work days and the second after every additional 25 work days.
- A person in vocational training. Maximum period of payment under the law. For a person with less than 12 years of schooling receives benefit for up to 138 days even if his maximum period **less than 138 days, up to the maximum period for payment under law.**
- Daily unemployment benefit to unemployed person referred to ones working at "unsuitable" work: for the first 60 days after the beginning of his unemployment.

2.4.1 *Waiting period before benefit can be received*

Unemployment benefit is not paid for the first five unemployment days in each period of four consecutive months from the *determining date*.

2.5 *Treatment of particular groups*

2.5.1 *Young persons*

- **The qualifying period** for minors is 100 days for which insurance contributions were paid out of the 360 days prior to the *determining date*.
- **Benefit duration:**
 - 67 days for an unemployed person aged 25 to 28 less than 3 dependents;
 - 50 days for an unemployed person under 25 less than 3 dependents.
 - 138 days for an unemployed person under 35, with at least 3 dependents.

Grants for minor aged 15-18 who took part in vocational training during the period of his unemployment, and if no suitable work training was found for him, on condition that he worked previously and participated in the support of his family at a scope of at least 20%. **The amount is calculated by** the rate of participation in supporting parents and to wages during the qualifying period, within the limits of half the *average wage*.

2.5.2 Older workers

- **Benefit duration:** 175 days for an unemployed person aged 45 or over.

2.5.3 Others if applicable, including disabled:

a. Demobilized soldier:

The minimum daily unemployment benefit for a demobilized soldier is determined on the basis of the daily average wage, calculated as 60% of half the *basic amount* [3] (basic amount [3] : NIS 8,648), but no more than 80% of the minimum wage.

Furthermore, a demobilized soldier who works at a job recognised as a *preferred/required* job (at unsuitable work) may be eligible for a **grant** at the rate of half the unemployment benefit due to him for a period of 138 days.

Demobilized soldier who worked at a job recognised as a *preferred/required* job that fulfils certain conditions (detailed in the “National Insurance programs in Israel”) is entitled to partial grant.

The amount is calculated by the relative part of the full grant in accordance with the number of workdays at the *preferred/required* job, out of the 150 days entitling one to the full grant.

The grant is tax deductible and treated as an income by the Income Tax Authority.

Benefit duration: 70 days

- b. **Following decease:** to widow of person (or in absence thereof, to his child) who had received an income support benefit in his lifetime – a lump-sum grant of an amount equivalent to the *basic amount* [1] –as it was 1st January (NIS 8,757).

3. Unemployment assistance

There is no distinct unemployment assistance benefit in Israel.

4. Social assistance

Income support benefit: A benefit paid to a person who is not capable *of providing for him by means of* income from work, and who is not eligible for payment from any other source. A partial benefit (income supplement) is paid to a person whose income from work or from any other source is lower than the minimum income level for subsistence, determined by law.

Program name in local language		...
Minimum age condition for social assistance receipt		20
Legal behavioural requirements	Registration as unemployed(2)	Yes
	Participation in integration measures	Yes
	Active job search(2)	No
	Work requirement(2)	No
	Other conditions for receipt of benefit (including requirements for conditional cash transfers (CCT))	...
	Legal behavioural requirements for adult family members other than the benefit claimant	Employment test also applies to claimant's spouse
Determination of benefit levels		National
Uprating mechanism of the benefit		...
Other supplements to basic benefit (per family)		No
Means-test for social assistance	Earnings disregards	Yes
	Benefit withdrawal rate with regard to earned income	60% (for singles) to 70% (for lone parents)
	Assets included in means test?	Yes
	Other benefits included in the means test	Unemployment insurance
Benefit provision (eligibility (E), generosity (G)) varies with	age	G: + more generous rates and means test for those aged 55 or over, - for those <25
	family situation	G: + children (constant rate for families with 2 or more children), + qualified adult
	over time	0
	other	0

4.1 Conditions for receipt

- Continuity of residence: Israeli resident for 24 consecutive months preceding the submission of claim;
- Aged 20 and over;
- The incomes of claimant and spouse are lower than the minimum level determined in the law;
- The employment test is required for a person claiming the benefit and his spouse, who are one of the following:
 - **Unemployed** and registered with the Employment Service, from which he is requesting work under the rules determined by the Employment Service and which has not offered him to any work suited to his health and physical condition, or which referred him to vocational diagnosis and rehabilitation.
 - A person who refuses to accept work offered to him or refuses to cooperate is not entitled to benefit for two months
 - A person receiving an unemployment benefit which is lower than the amount of the income support benefit is entitled to an income supplement, provided that he also reports to the income support section of the Employment Service and is prepared to take any work that is offered to him.
- The employment test for the income support benefit applies to the claimant and his spouse. If the spouse does not satisfy the employment test, there is no entitlement to benefit. It should be noted that there are persons exempt from the employment test, such as a mother of a child up to two years old.

4.2 Calculation of benefit amount

The income support benefit has a number of rates. Each rate can be paid fully (*income support*) or partially (*income supplement*). Following are the various benefit rates as percentage of the *basic amount* [3] – NIS 8,648.

4.2.1 Calculation of gross benefit

For those under the age of 55 (for those aged 55 or over, see paragraph 4.5.2):

Who had been entitled to regular rate in December 2002 or who began receiving benefit in January 2003: individual - 20%; couple – 27.5%; couple with one child - 30%; couple with two or more children – 33.5%.

Who had been entitled to increased rate in December 2002: individual – 22.5%; couple – 30%; couple with one child – 33.5%; couple with two or more children – 39%.

4.2.2 Income and earnings disregards

In the income test for entitlement to the income support benefit, the amount of income (from work and pension) not considered as income is: NIS 463 for an individual under age 55, NIS 648 for a person under age 55 with dependents, NIS 1,204 for an individual aged 55 or over, and NIS 1,574 for a person aged 55 or over with dependents.

Above this income, the benefit is decreased by one shekel for every shekel of income from pension (100%) and by 60%-70% — depending on family composition — of income from work.

As a result, the maximum income from work that still entitles one to the minimum benefit is: single, NIS 2,865; couple, NIS 3,952; couple with one child NIS 4,390; couple with two or more children, NIS 5,167, lone-parent with one child, NIS 5,356; lone-parent with two or more children, NIS 6,135.

4.3 Tax treatment of benefit and interaction with other benefits

Health insurance is deducted from this benefit at the minimum rate of NIS 103 per month.

4.4 Benefit duration

For an unlimited time, as long as the conditions of entitlement to benefit are fulfilled.

4.5 Treatment of particular groups

4.5.1 Young persons

For those under the age of 25 who are not defined as one of the exceptions set down in the law: the benefit rate is 80% of the rates listed above in (see 4.2.1.).

4.5.2 Older workers

For those aged 55 or over:

The increased rate is paid: individual - 25%; couple – 37.5%; couple with one child – 43.5%; couple with two or more children – 49.5%.

4.5.3 Others if applicable, including disabled

a. New immigrants: Conditions for receipt: 12 accumulative months of residence preceding the submission of claim.

b. Widows, separated persons and single parents:

for those under the age of 55: with one child – 33.5%; with two or more children – 39%.
for those aged 55 or over: with one child – 42.5% (less one *basic amount* [2] (basic amount: NIS 140)
with two or more children – 52.5% (less one *basic amount* [2])

c. Rate for children: orphan or abandoned child:

One child – 25% (less one basic amount [2])
Two children – 37.5% (less two basic amounts [2])
Each additional child – 10%.

d. Young persons under the age of 20 are entitled to the benefit as one of the exceptions set down in the law, such as a parent of a child in his custody, or pregnant and not living with parents provided that one of them receives an income support benefit, an orphan or an abandoned child.

e. The following may be entitled at the age of 18 or over: those who lack the capacity to work due to illness, released prisoners, prisoners working at service jobs, persons in severe distress.

f. Following deceased: to widow of person (or in absence thereof, to his child) who had received an income support benefit in his lifetime – a lump-sum grant of an amount equivalent to the *basic amount* [1] NIS 8,757 as it was 1st January.

g. Alimony/child support payments: for purposes of the income support benefit, the amounts of alimony or child support are deducted from the amount of the income of a person who pays alimony or child support under a court judgment to a wife or child not living with him. However, the deducted amount may not exceed the income support benefit due to him according to the composition of his family.

5. Housing benefits

The reference date for policies described in this chapter is July 1, 2015.

The housing benefits are under the authority of the Ministry of Construction and Housing

Regular housing benefits	Program name in local language		...
	Entitlement depends on	Household type/size	Yes
		Income	Yes
		Dwelling size	Yes
		Geographic location	Yes
		Actual rental cost	Yes
	Description of regular housing benefit		The amount of benefit is calculated by "credit score" system. It is determined by several parameters: family situation, number of children in the family, number of siblings of each parent, other benefits given to the family, age, income, benefits for particular groups, and living areas.
	Uprating mechanism of the benefit		...
Housing related support through other benefits			n.a.

In January 2014 the Public Housing Law (1998) has been modified coming into effect from 01.01.2013 for the following 5 years.

Tenants who live in public housing apartments were entitled (if interested) to purchase those apartments in up to 70% (87.5% for disabled) markdown to a maximum amount of 881,250 NIS, under the following conditions:

- Living in the apartment for at least last 5 years;
- During the residency in public housing did not own an apartment (partially or completely);
- Holding a certificate proving that he/she are lacking an apartment.

In June 2014 the rental assistance extended to all areas including small locality.

Housing Benefits:

- A. Public housing: An "inventory" of apartments that belongs to the state for the use of those in need. Public housing benefit provides subsidized rental apartments.

It should be noted that there is an extended waiting period for public housing apartments. During this period a special assistance for rental accommodation is provided.

- B. Rental Assistance– a grant given to singles, couples, families, elderly and or disabled persons meeting specific criteria as determined by the Ministry of Construction and Housing.

5.1 Conditions for receipt

All housing benefits are subject to a "credit system" which ranks eligibility for housing benefit (credit points of entitlement).

- A. Public housing: The inventory of apartments in public housing is very limited, therefore eligibility for this benefit is restricted to persons who are in a state of economic or functional stress:

- An individual or a family, who do not share rights partial or complete rights to an accommodation - existing or in building process.
- Persons holding a certificate to prove that he/she are lacking an apartment.
- Families:
 - Where both parents have accumulated at least 1400 "credit points".
 - That has 3 or more children.
 - Whose income is less than the maximum amount of social security that a couple with 2 children can receive.
 - Working to their full earning capacity.

- B. Housing assistance:

- An individual or a family, who do not share partial or complete rights to an accommodation - existing or in building process.
- A person with an apartment, which is registered in his name under the following conditions:
 - The apartment is not available to him;
 - A close family member is living in that apartment (sister, brother, mother, father);
 - The family member did not and does not have any other apartment registered in his name;
 - The family member has not received any housing assistance.

5.2 Calculation of benefit amount

The amount of benefit is calculated by "credit score" system. This score is relevant only for mortgages and public housing benefits.

The "credit score" is determined by several parameters: family situation, number of children in the family, number of siblings of each parent, other benefits given to the family, age, income, benefits for particular groups, and living areas.

Calculation of gross benefit

A. Public housing: provides accommodation for those who fulfill conditions (as mentioned above).

B. Rental assistance:

The benefit is calculated according to several parameters: those parameters determine the amount given for rental assistance.

The parameters include:

- Area of residence: Those who do not live in *priority development area* are entitled to larger benefits in accordance with higher rents required in these areas.
- Family situation: couples, single parent, singles.
- Age - relevant only where singles are concerned.
- Number of children:
- Income test – for families with at least one parent working full time whose total family income is low.
- Eligibility to certain benefits, including: disability benefit of at least 75% and an income support benefit.
- An increased rate of 10% is given to holocaust survivors, Second World War veterans or victims of the Chernobyl nuclear reactor disaster.

Calculation of assistance with paying the rent:

Most of the rental assistance is allocated to those who do not live in priority development areas. There is also a division between large and small locality both in locality that belongs to priority development areas and locality which are not included in the priority development areas.

Therefore, the table below shows the amount ranges for all types of areas:

Category	2014 (NIS)
Individuals	
Aged 55+ receiving income supplement benefit	370-580
Couples with no children	550-850
Lone parents/couples with children	
Up to 3 children (incl.)	760-1,250
4 children or more	950-1,500
Their income from wage is under 25% above the income level credit (grade 46):	
Up to 3 children (incl.)	480-1,170
At least 4 children	600-1,470
Waiting for public housing apartments (including Lone parents):	
Up to 3 children (incl.)	875-2,500
4 children or more	1,050-3,000

Reference date for all information is **July 1st 2016**

Country chapter for OECD series *Benefits and Wages* (www.oecd.org/els/social/workincentives)

*The information above *does not* include *all* categories, for example: families that receive special income supplement benefit and as mentioned there are person entitled to additional rate of 10% above the assistance.

In the model the highest possible benefit amounts are applied (i.e. the upper bound).

***Income test: the maximum wage which makes the person entitled to the benefit is as follows:

Entitled group	Grade 45 (In NIS)				Grade 46 (In NIS)				Grade 47 (In NIS)			
	May 2012	Apr 2013	Jan 2014	Jan 2015	May 2012	Apr 2013	Jan 2014	Jan 2015	May 2012	Apr 2013	Jan 2014	Jan 2015
Couple	4,323	4,390	4,479	4,491	5,404	5,488	5,599	5,614

5.3 *Tax treatment of benefit and interaction with other benefits*

None

5.4 *Treatment of particular groups*

5.4.1 *Young persons*

None

5.4.2 *Elderly persons*

Housing benefit rates for the elderly person are increased:

- Families and individuals aged 55+ that receive an existence benefit are entitled to increased rental assistance.
- Those who receive a pension benefit with income supplement benefit are entitled to increased rental assistance.
- Elderly persons are also entitled to shelter housing as opposed to the inventory of apartments in their area of residency area.

5.4.3 *Others if applicable, including disabled*

a. Single parent:

- The rates of benefits given to single-parent families are allocated according to two types of families: families with up to 3 children and families with 4 or more children.
- The rates for single-parent families range from NIS 480 to NIS 3,000, in accordance with various criteria.

b. New immigrants

There are two types of eligibility for assistance:

1. Immigrants entitlement based on seniority years - this benefit is given from the second year of residency and until the 5th year of residency ; the amount of benefit declines every year (max-min):

a.

For families: NIS 402 - NIS 99

b.

For individuals: NIS 223 - NIS 89

c.

For single parents: NIS 402 - NIS 134

- 2.

Immigrants in their first years of residency, who immigrated between 15.8.2004 and 31.12.2008 and are entitled to rental assistance, receive between 100 NIS – 400 NIS rental payments according to their living areas, as appose to their years of residency.

- c. Lone soldiers** – soldiers whose families do not live in Israel are entitled to rental assistance amounting to NIS 402 per month while they are in-service.

6. Family benefits

Program name (local name in parentheses if available)			Child allowance	Large family allowance
Type of benefit			Universal	Targeted
Eligibility criteria	Age limits for children up to and including (in parentheses if student)		18	18

	Assets part of means test?		...	...

Child allowance:

Monthly allowance received by parents according to the number of children in the family.

For a child under the age of 18 living in Israel and not married.

Maternity - In Israel there are benefits given to parents due to the birth of a child. Those benefits are detailed under the definition of "Maternity", and will appear in this document in "text box":

- **Hospitalisation grant** – a grant given to the hospital due to hospitalisation in connection with giving birth.
- **Birth grant** – a grant given to the woman giving birth.
- **Birth allowance** – an allowance given due to the birth of 3 or more children in one birth.
- **Maternity allowance and vacation pay** – allowances given due to the maternity leave.
- **Risk pregnancy benefit** – a benefit given during the pregnancy for a woman in risk due to her pregnancy.

6.1 *Conditions for receipt*

Child allowance:

Insurance contributions (NOT CONDITION FOR RECEIPT!):

	<u>Full rate</u>	<u>Reduced Rate</u>
Employee	No Payment	
Employer	2.08%	1.32%
Self Employed	2.40%	1.32%
Other Insured	2.64%	1.10%
Government:		
For employee	0.08%	0.08%
For self employed	0.08%	0.08%

Government participation: 170.3% of insurance contribution receipts, funds study grants and payments to new immigrant children.

Maternity: Government participation: the government participates in paying the birth allowance and the hospitalization grant.

	<u>Full rate</u>	<u>Reduced Rate</u>
Employee	0.87%	0.04%
Employer	0.53%	0.11%
Self Employed	0.82%	0.56%
Other Insured	0.26%	0.11%
Government:		
For employee	0.09%	0.09%
For self employed	0.09%	0.09%

Ministry of Defense: maternity allowance to woman soldiers – a woman soldier who gave birth during her army service is entitled to allowance, funded by the Ministry of Defense.

Conditions of entitlement:

- An Israeli resident, age 18 and over.
 - *An insured person with at least one child;*
- Or**
- *An insured person who supports a child who is not his for at least 12 months.*

Maternity:

• **Hospitalisation grant, Birth grant and Child Birth allowance:**

- An insured woman or a wife of insured person, even if she gave birth outside Israel.

Or:

- Employee or self-employed woman working in Israel or the wife of an employee or self-employed person.
- Need to be hospitalized in connection with giving birth.
- Working in Israel for at least 6 month immediately preceding the birth even if not residents in Israel provide she gave birth in Israel.
- The above does not apply to a person living in an area or in territories of the autonomy who is not an Israeli resident – all as defined under the Law.

• **Maternity allowance and vacation pay:**

- An employee or self-employed woman;
- Ages 18 and over;
- Working in Israel;
- A woman aged 18 or over in vocational training;
- A woman employee working abroad – under certain conditions.

- **Qualifying period:**

For maternity allowance for mother or father:

The period of payment of insurances contributions for the employee or by self-employed: for 10 out of the 14 months or for 15 out of the 22 months preceding the *determining date*.

For maternity allowance for mother only: Also for 6 out of the 14 months preceding the *determining date*.

Determining date - The day on which the insured woman ceased working while pregnant.

- **Risk pregnancy benefit:**

- A resident of Israel;
- Employee or self-employed woman;
- Absence from work due to a medical condition endangering the insured woman or her foetus;
- Qualifying period up to *determining date* for risk pregnancy;
- A period of precautionary rest of at least 30 consecutive days due to risk pregnancy;
- Non-receipt of payment for risk pregnancy from any other source.

Determining date for risk pregnancy – The day on which the insured woman ceased working due to need for precautionary rest as result of risk pregnancy.

Calculation of benefit amount

6.2.1 *Calculation of gross benefit*

Child allowance:

For a child born up to June 1, 2003:

- For the first child – the *basic amount* [2] (basic amount: NIS 150);
- For the second child –NIS 188;
- For the 3rd child – NIS 188;
- For the 4th child– NIS 336;
- For the 5th and each additional child – NIS 354

For a child born on or after June 1, 2003:

- For the first child – the *basic amount* [2];
- For the 2nd, 3rd and 4th child –NIS 188;

- For the 5th and each additional child – NIS 150

Maternity:

Both employees and self-employed women who work in Israel are entitled, upon giving birth, to a maternity allowance from the National Insurance Institute for the period of their maternity leave from work.

- **Hospitalisation grant:** a sum set in the regulations and updated from time to time.

- **Birth grant:** 20% of the *basic amount [1]* for one child who is the first child of the family, 9% of the *basic amount [1]* for one child who is the second child of the family, 6% of the *basic amount [1]* for one child who is the third or subsequent child of the family; 100% of the *basic amount [1]* for twins and 50% an additional 50% of the *basic amount [1]* for every additional child born in the same birth.

- **Birth allowance:**

Maternity allowance and vacation pay: 100% of the average daily income liable for insurance contributions of the entitled person in the three-month preceding the *determining date*.

For a period of 14 weeks – if insurance contribution were paid for 10 months out of 14 or for 15 months out of the 22 months preceding the *determining date*.

For a period of 7 weeks (for mother only) – if insurance contribution were paid for 6 months out of 14 or for 15 months out of the 22 months preceding the *determining date*.

- **Risk pregnancy benefit:** for every day of precautionary rest due to risk pregnancy, the sum which is the lower of the following:
 1. A sum equivalent to the *basic amount [1]*, divided by 30.
 2. The insured woman's income in the 3 months preceding the day of her cessation of work, divided by 90.

6.2.2 Income and earning disregards

6.3 Tax treatment of benefit and interaction with other benefits

Child allowance: is not considered as an income and therefore it is not deductible.

Maternity:

The maternity allowance, vacation pay and risk pregnancy benefits:

The taxes are at the rate of the parallel income amount received from work.

National insurance contributions are deducted from these benefits at the rate detailed in the table at the end of this document.

Health insurance contributions are deducted from these benefits at the rate of a parallel income received from work.

6.4 Treatment of particular groups

6.4.1 Young persons

None

6.4.2 Older workers

None

6.4.3 Others if applicable, including disabled

- a. Increment to child allowance:** paid to large families (families with three or more children) that receive a *subsistence benefit* (income support, alimony, disability, old age, or survivors) from the NII, for the third and fourth children in the family, at the rate of 0.70 of the *basic amount* [2] (*basic amount* [2]: NIS 140) for each child.
- b. Study grant:** paid for every child between the age of 6 and 14 years in entitled families, at the beginning of the school year. The grant is at the rate of 18% of the *basic amount* [3] (*basic amount*: NIS 8,648), for children aged 6-11 and at the rate of 10% of the *basic amount* [3] for children aged 12-14.

The following families are entitled to a study grant:

- A lone-parent family;
- A family with 4 or more children that receives *subsistence benefit*;
- A child orphaned from both parents;
- An abandoned/orphaned child as defined in the Income Support Law;
- A child who immigrated to Israel without an insured parent;
- A woman residing in a shelter for battered woman, under certain conditions;
- A person who receives an income support benefit separately from his/her spouse;

a. Adopting parent and intended parent –

Condition of entitlement:

Adoption a child under 10 years old or having a child through surrogacy.

Entitlement to vacation pay: cessation of work due to adoption of a child or having a child through surrogacy.

Grant: equivalent to the birth grant according to the number of children under 10 years old who were adopted on the same day or according to the number of children born through surrogacy (or surrogacy and regular birth) in adjacent births of up to two months between them.

b. Childbirth allowance - A birth of 3 or more children of whom at least 3 remained alive at the end of the 30 day period immediately following the birth, on condition that the mother is entitled to maternity grant.

The allowance payment calculation – a percentage of the *basic amount* [1: NIS 8,757 for 20 months.

c. Maternity allowance:

For father:

- The completion of a qualifying period up to *determining date*.
- Employer's authorization of father's maternity leave.
- Father's maternity leave of at least 21 consecutive days.

Furthermore, the mother must be entitled to maternity leave of at least 14 weeks from the birth, agree waive part of her maternity leave, and return to work not before the end of 6 weeks from the birth – all this, unless she is not able to take care of the child due to her medical condition.

d. Special hospitalisation grants:

- A mother who gave birth to more than one child, and she or her child is hospitalized during her maternity leave for a period of more than 2 weeks: entitled to maternity allowance for a longer period – according to conditions determined by law.
- A mother, who gave birth, and she or her child is hospitalized during her maternity leave for a period of more than a week: is entitled to split up her maternity leave.

e. A special allowance and special benefit:

Due to the death of the mother while giving birth or within a year of giving birth, who was insured for maternity grant:

For every child who was born in that birth at the rate of 30% of the average wage for a period of 24 months, or if survivors' or dependents' benefit is paid for him – for a period of 12 months.

A special benefit to her widower if he stop working to take care of the child – at a rate of the injury allowance, for a period of up to 12 weeks.

7. Childcare for pre-school children

Reference date for all information is **July 1st 2016**

Country chapter for OECD series *Benefits and Wages* (www.oecd.org/els/social/workincentives)

There is a significant break in the series on the child-care for pre-school children data (2014/2015). Starting from this year, there is a change in a methodology of collecting data in independent private institutions. This change is the reason for the significant increase in the amount of children enrolled in independent private institutions.

As a result of the change in the methodology of data collection in independent private institutions, some changes have been made in public institutions data for the sake of correspondence between two different data sources. This can cause to a light under-coverage of the population of children enrolled in kindergartens.

Special symbols

() = data based on estimates, or data based on a small number of cases, or data with a relative sampling error which is high

According to the decision of the Israeli government, the state provides free education from the beginning of the 2012/13 school year, 08/27/2012, for pre-school children aged 3-4 in the public kindergartens.

Out-of-pocket childcare fees paid by parents

The latest data are for 2016.

Average expenditure on education services for households with children aged 0-15 years, who had the relevant expenditure in current prices:

	2012		2013		2014	
	net money income	15,494	net money income	16,658	net money income	17,096

Until August 27th, 2012, the fee for a pre-compulsory kinder garden (ages 3-4) owned by local authorities, women's organisations (such as Wizo, Na'amat, etc.) and other authorities, was determined by the Ministry of Education. The basic fee was NIS 800 for a school day from 7:30-14:00.

The reduction percentage benefit is due to the average monthly gross income per person (including child allowance) and is as follows:

Reduction percentage benefit

Average gross income per person (NIS)	Paying Rank (%)
1336–0	10
1446–1337	20
1568–1447	30
1684–1569	40
1831–1685	50
1920–1832	60
2038–1921	70
2233–2039	80
2279–2234	90
Above 2280	100

The maximum income amount for receiving this benefit from the Ministry of Education is NIS 1,494 (rank 4). Local authorities can fund benefits (beyond the rates given by the Ministry of Education) at their own expense.

Participation in the pre-compulsory kinder garden tuition by the Ministry of Education also takes into account the following circumstances.

1. Area of residency – for the parents living in *preferred area A* and *B* are entitled to a full refund of the tuition.
2. Distressed neighbourhoods, children from age four, living in distressed neighbourhoods as defined by the ministerial commission for distressed neighbourhoods, are entitled to 90% refund of the tuition.

7.1 *Child-care benefits*

There are no cash benefits received by parents for children in childcare.

7.2.1 *Conditions for receipt*

7.2.2 *Calculation of benefit amount*

7.2.2.1 *Calculation of gross benefit*

7.2.2.2 *Income and earnings disregards*

7.2.3 *Tax treatment of benefit and interaction with other benefits*

7.2.4 *Treatment of particular groups, including disabled*

8. *Employment-conditional benefits*

A non-wastable earned income tax credit (EITC) was implemented in 2008 in selected geographical areas of Israel covering 15 % of the population. Entitlement to this credit is established based on earnings in the previous year. The tax credit was extended to all areas of Israel in 2012 (based on the earnings in 2011). Therefore, it is included in the model since 2011. For mothers of children up to the age of 2 and for single parents the full coverage started in 2011 (based on earnings in 2010).

Under the law, workers aged 23 or more who are parents of one or two children aged less than 18 (or workers aged 55 or more even without children), and earn at least ILS 2 050 per month (about 43 per cent of the minimum wage) but not more than ILS 6,170 per month are eligible for a monthly increment of up to ILS 330. The corresponding figure for a family with 3 or more children is ILS 470. These sums were increased by 50 % in 2013 (based on earnings in 2012), for working mothers (and fathers in one-parent family). Families in which both parents work, and their joint income does not exceed ILS 11,860, will be entitled to these benefits for each wage-earner. The grant is paid four times a year directly into the account of the eligible persons.

Since 2016, single parents are eligible for the EITC for a wider income range – from ILS 2 050 per month to ILS 9 360 per month (for a single parents of 1-2 children) or ILS 11 400 per month (for a single parents of 3 or more children).

9. Lone-parent benefits

There are no specific defined benefits for lone parents. However there are special conditions and rates for lone parents in some benefits. Those are detailed in this document in the "other groups" section of each chapter, under the "treatment of particular groups" headline.

10. Tax system

The Tax System's administrative structure

There are four **administrative authorities that are involved in determining tax policy and the policy for obligatory payments** as well as regarding their imposition, collection and enforcement:

1. Government offices
2. The National Insurance Institute
3. Local authorities
4. Other statutory bodies

Government offices

Ministry of Finance

State Revenue Administration

The State Revenue Administration is a coordinating branch within the Ministry of Finance that coordinates all issues dealing with state revenues and the tax system.

The Israeli Tax Authority

The Israeli Tax Authority is charged for collecting direct taxes (Income tax, Capital gains tax and Real estate tax) and indirect taxes (Value added tax, Customs and Purchase and excise tax). . The Tax Authority is also responsible for the implementation and enforcement of the customs rules.

Additional government ministries dealing with collection

Government ministries collect fees and obligatory payments, which are paid for licenses or services that they provide.

The National Insurance Institute

The National Insurance Institute collects obligatory payments by virtue of the National Insurance Law (1995) and the National Health Insurance Law (1994). The National Insurance Institute is under the supervision of the Minister of Welfare and Social Services.

The Minister of Welfare and Social Services chairs the National Insurance Institute Council, whose members include fifty representatives of workers' and employers' organizations, government ministries and the public.

Local Authorities

In 2015, there were 255 local authorities in Israel, of which 76 were cities, 125 were local councils and 54 were regional councils.

Local authorities in Israel collect municipal property taxes, fees and betterment charges on properties within their jurisdictions. Each Local authority has its own tax administration.

Other statutory bodies

Additional statutory bodies, such as the Ports Authority and the Airports Authority collect fees and charges.

10.1. Personal income tax

10.1.1. Tax unit

In general, spouses are taxed separately on their earned income, subject to the condition that its sources are independent. The household is taxed jointly if their earned income is deemed to be interdependent. Until 2014, the conditions for interdependence involved situations where one spouse worked in a business which the other spouse either owned or had certain levels of capital or management/voting rights. Since 2014, spouses could still be taxed separately, even in cases where their earned income is deemed to be interdependent, if the labour of both spouses is needed to run the business and their income is commensurate to their effort.

10.1.2. Tax allowances and credits

10.1.2.1. Standard tax credits

The standard tax credits are given in the form of credit points subtracted from the tax liability. Each point is worth ILS 2 592 in 2016.

- *Basic credit:* Every resident taxpayer is entitled to 2.25 credit points (ILS 5 832 in 2016).
- *Additional credit for women:* Women are entitled to a further half credit point (ILS 1 296 in 2016).
- *Child credit:* Working mothers (and fathers in one parent families) with children aged under 18 are entitled to one additional credit point per child (ILS 2 592 in 2016). In 2012 this credit was increased to 2 credit points per child aged under 5 (ILS 5 184 in 2016). Since 2012, married working fathers with children aged under 2 are also entitled to 2 credit points per child.
- *Single parent credit:* Single parents (male or female) are entitled to one additional credit point (ILS 2 592 in 2016).

10.1.2.2. Non – standard tax credits applicable to income from employment

- Tax credits are awarded for contributions to approved pension schemes, up to a ceiling which varies according to the employee's circumstances.
- Employees living in certain development areas or in conflict zones receive credits as a percentage of their income up to ceiling. In 2016, a comprehensive reform was implemented, where the average credit was decreased but the number of beneficiaries more than doubled. In 2016 the credits range from 7 % in the lowest category to 20% in the highest category with ceilings of ILS 132 000 and 241 080 respectively. About 20% of the population lives in these areas.

- New immigrants are entitled to three additional credit points in their first eighteen months in Israel, two additional credit points in the following year, and one credit point in the year after.
- Discharged soldiers receive 2 credit points for three years after the completion of at least 23 months of service or 1 credit point for a shorter service.
- Graduates of academic studies receive 1 credit point for three years after the completion of a B.A. degree (or after the completion of 1 700 study hours that led to a professional certificate) and 0.5 credit point for two years after the completion of a M.A. degree.

10.1.3. Tax schedule

The tax schedule for earned income in 2016 is as follows:

Taxable income (ILS)	Tax rate (%)
0 – 62 640	10
62 640 - 107 040	14
107 040 - 166 320	21
166 320 - 237 600	31
237 600 - 496 920	34
496 920 - 803 920	48
Above 803 920	50

10.1.4. Income tax payments

The employer deducts tax due from his employees at source. The employer transfers the tax to the income tax on the 15th of the month for preceding period. Employers who have a large number of employees report to the Tax Authority once a month, while employers with a lesser number of employees submit their returns once every two months (for example: a small employer submits a return for January and February on March 15). Self-employed persons pay an advance to the Income Tax Authority on the 15th of the month. The advance is calculated by the Tax Authority according to the figures in annual report submitted for the previous year.

10.1.5. Earned income tax credit

See section 8.

10.1.6. Regional and local income tax

There are no regional or local income taxes.

10.2. Compulsory social security insurance system

Social security contributions are made up of a combination of those for National Insurance and Health Insurance. The tax rates paid by employees and employers are applied in two brackets:

- A reduced rate for income up to a level of 60% of the average wage per employee post (ILS 5 678 per month in 2016).

- A full rate for income exceeding 60% of the average wage per employee post and up to a level of around 5 times the average wage per employee post (ILS 43 240 per month in 2016).

10.2.1. *Employees' contributions*

The taxable base for social security insurance contributions paid by employees is the total amount of the gross wage or salary including fringe benefits. The assessment period is the calendar month. The effective employees' contribution rates in 2016 are as follows:

Insurance branch	Full rate contribution (%)	Reduced rate contribution (%)
Total for National Insurance branches	7.00	0.40
Health	5.00	3.10
Total contributions	12.00	3.50

10.2.2. *Employers' contributions*

Social security insurance contributions are also paid by employers on behalf of their employees. These relate to National Insurance only - employers do not pay any contributions for health insurance.

The employers' contribution rates in 2016 are as follows:

Insurance branch	Full rate contribution (%)	Reduced rate contribution (%)
Total for National Insurance branches	7.50	3.45
Health	--	--
Total contributions	7.50	3.45

10.3. *Payroll taxes*

The following payroll taxes exist in Israel but they have limited coverage:

- Wage tax on the non-profit institutions: the VAT law imposes a 7.5 per cent on the wage-bill on the non-profit sector including Government,
- Wage tax on the financial institutions: the VAT law also imposes a 17.00 per cent tax on the wage-bill of the financial institutions.

10.4. Contributions to private pensions

Until 2007 employers were not legally obliged to pay into a pension plan for their employees. Pension rights were guaranteed in collective agreements that covered less than half of the labour force. About one million employees in Israel had no pension arrangement (mainly those earning a relatively low wage, temporary workers and those working for subcontractors).

In 2008, a compulsory employment pension was introduced for employees with a period of employment of at least 6 months. The minimum rate of contributions in January 2016 was 17.5% of the employee's salary (up to the level of the average wage of ILS 9 464 per month) and will be increased to 18.0% in July 2016 and 18.5% in January 2017. About one third is paid by the employee and two thirds by the employer. Part-time work

11.1 Special benefit rules for part-time work

Part-time workers are entitled to national and health insurance benefits under the same schemes as are full-time workers. They have to fulfill the same qualifying conditions in order to be entitled to any of the above-mentioned benefits.

11.2 Special tax and social security contribution rules for part-time work

There are no special rules for part-timework.

12 Policy developments

Regarding the tax system in Israel:

In Israel tax is levied on personal basis. Israelis pay taxes on all sources of income, both in Israel and abroad. Foreign residents pay taxes only on income derived in Israel, all subject to the conventions for the avoidance of double taxation.

- In 2016 Israel's corporate income tax rate is 25%
- Individual income tax rates in 2016 are 10%-50%
- Income tax rate on stock exchange gains is 25%

There are reduced tax rates for passive income abroad.

There is an exemption from capital gains for foreign investors, subject to certain conditions.

The corporate income tax will go down to 24% in 2017 and 23% in 2018.

VAT rates:

- Until 30.6.2009 – 15.5%
- From 01.07.2009 until 31.12.2009 – 16.5%
- From 01.01.2010 until 31.08.2012 – 16%
- From 01.09.2012 until 31.05.2013 – 17%
- From 01.06.2013 until 30.9.2015 – 18%
- From 1.10.2015 – 17%

12.1 Policy changes introduced: 2nd July 2015 – 1st July 2016

- In October 2015, the VAT rate was lowered to 17%.
- In January 2016, the Employer's SSC regular rate was increased to 7.5%. The reduced rate (on wages up to 60% of the average wage) remained unchanged at 3.45%.

12.2 Future policy changes announced since 1st July 2016

A. Tax system

- January 2017 – the self-employed SSC regular rate was increased from 11.23% to 12.83% while the reduced rate (on income up to 60% of the average wage) decreased from 6.72% to 2.87%.
- In 2017 the income tax credits for both parents on account of their children up to 5 years old were increased.
