
JAPAN
2007

1. Overview of the system

Unemployed persons can receive an unemployment insurance benefit (basic allowance) for a period varying with the reason of job separation, the age and the period of employment insured. As long as they satisfy certain conditions, social assistance is also available for persons with limited means; it includes a housing assistance. Income tested family benefits can be obtained, as well as means-tested lone parent benefits. Income-related child-care costs are paid for children under 12. Central and local government taxation is individual.

1.1. Average worker wage (AW¹)

The 2007 AW earnings level is JPY 4 988 400.

2. Unemployment insurance

2.1 Conditions for receipt

2.1.1 Employment conditions

Minimum of 6 months of insured work in the last 12 months, with minimum 14 days of work per month.

2.1.2 Contribution conditions

	Employers	Employees	Total
Premiums for unemployment benefits	$\frac{6}{1,000}$	$\frac{6}{1,000}$	$\frac{12}{1,000}$
Premiums for Two Services	$\frac{3}{1,000}$	None	$\frac{3}{1,000}$
Total	$\frac{9}{1,000}$	$\frac{6}{1,000}$	$\frac{15}{1,000}$

¹ AW refers to the Average Wage estimated by the Centre for Tax Policy and Administration (www.oecd.org/ctp). For more information on methodology see Taxing Wages 2005-2006, OECD, 2007, part 5, sections 2 and 3.

2.2 Calculation of benefit amount

2.2.1 Calculation of gross benefit

The basic allowance is calculated from the daily amount of wages (DAW). DAW is the amount obtained by dividing the total amount of wages, excluding bonuses, paid during the last 6 months by 180 days.

Benefit ratio is calculated as below since last August.

A benefit ratio (BR) is then calculated for those under 60 years old, with the following formula:

- i) If $2080 \leq \text{DAW} < 4100$ $\text{BR} = 0.8\text{DAW}$
- ii) If $4100 \leq \text{DAW} < 11870$ $\text{BR} = 0.8 - [(0.3 * (\text{DAW} - 4100)) / (11870 - 4100)]$
- iii) If $11870 \leq \text{DAW} < \text{Maximum Amount}$ $\text{BR} = 0.5\text{DAW}$
- iv) If $\text{DAW} < 2080$ or $\text{DAW} \geq \text{Maximum Amount}$.
The daily amount of basic allowance is fixed at $2080 * 0.8$ and the $\text{Maximum Amount} * 0.5$ respectively.

The maximum amount of DAW

Age	In JPY
- 29	12790
30 - 44	14200
45 - 59	15620

BR for recipients who are equal to or over 60 but under 65 is calculated with the following formula:

- i) If $2080 \leq \text{DAW} < 4100$ $\text{BR} = 0.8\text{DAW}$
- ii) If $4100 \leq \text{DAW} < 10640$ $\text{BR} = 0.8 - [(0.35 * (\text{DAW} - 4100)) / (10640 - 4100)]$
- iii) If $10640 \leq \text{DAW} < 15130$ $\text{BR} = 0.45\text{DAW}$
- iv) If $\text{DAW} < 2080$ or $\text{DAW} \geq 15130$
The daily amount of basic allowance is fixed at $2080 * 0.8$ and $15130 * 0.45$ respectively.

2.2.2 Income and earnings disregards

It is not means-tested, and the benefit stops when the recipient gets employed or starts his/her own job. Means-tested social assistance can complement the unemployment benefit.

2.3 *Tax treatment of benefit and interaction with other benefits*

Tax treatment of benefit : Not taxable.

Interaction with other benefits : None.

2.4 *Benefit duration*

It is paid on a 7-day week basis, after a 7-day waiting period, for a period that varies from 90 to 360 days according to the period of employment insured, the age of the recipient and the reason of job separation, as follows:

Duration of benefits for the ordinary unemployed					
Classification	Insured period (in years)				
	Less than 1	1 to 4	5 to 9	10 to 19	20 or more
All ages	90 days		90 days	120 days	150 days

Duration of benefits for persons difficult to re-employ					
Age	Insured period (in years)				
	Less than 1	1 to 4	5 to 9	10 to 19	20 or more
Younger than 45			300 days		
45 – 64	150 days		360 days		

Duration of benefits for the unemployed as a result of bankruptcy, dismissal, etc.

Age	Insured period (in years)				
	Less than 1	1 to 4	5 to 9	10 to 19	20 or more
Younger than 30	90 days	90 days	120 days	180 days	—
30 – 34	90 days	90 days	180 days	210 days	240 days
35 – 44	90 days	90 days	180 days	240 days	270 days
45 – 59	90 days	180 days	240 days	270 days	330 days
60 – 64	90 days	150 days	180 days	210 days	240 days

A unique feature in the unemployment benefit system is the re-employment allowance: a lump-sum amount is paid to an unemployment benefit recipient, whose remaining duration of benefits of basic allowance is one-third or more of the prescribed duration of benefit and 45 days or more, and who takes up steady employment or starts his/her own job. The amount of this allowance is equal to the remaining benefit period $\times 0.3 \times$ the daily amount of basic allowance.

2.5 *Treatment of particular groups*

2.5.1 *Young persons*

None.

2.5.2 *Older workers*

When older workers equal to or over 65 lose their job, the benefits for them are paid as a lump sum.

Insured employment (years)	The benefit amount (JPY)
Less than 1	30 daily benefit of basic allowance
1 –	50 daily benefit of basic allowance

The daily amount of basic allowance is calculated the same as that of recipients under 30 years old.

2.5.3 *Others if applicable*

3. **Unemployment assistance**

None.

3.1 *Conditions for receipt*

3.1.1 *Employment conditions*

3.1.2 *Contribution conditions*

3.2 *Calculation of benefit amount*

3.2.1 *Calculation of gross benefit*

3.2.2 *Income and earnings disregards*

3.3 ***Tax treatment of benefit and interaction with other benefits***

3.4 ***Benefit duration***

3.5 ***Treatment of particular groups***

3.5.1 *Young persons*

3.5.2 *Older workers*

3.5.3 *Others if applicable*

[e.g. lone parents, immigrants, part-time employees, self-employed, disabled]

4. Social assistance

Social assistance consists of eight types of aids provided for those who are unable to provide minimum living standards. These are: livelihood assistance , housing assistance , medical assistance , long-term care assistance , occupational assistance , education assistance , maternity assistance , and funeral assistance . Only livelihood assistance and housing assistance are considered here. The selected rates are classified as Grade 1-1, as paid in Osaka and Tokyo.

4.1 *Conditions for receipt*

It is tested against gross earned income.

4.2 *Calculation of benefit amount*

4.2.1 *Calculation of gross benefit*

Livelihood assistance is composed of two types of benefit:

- Personal expenses (Category 1) are related to the age of each family member:
-

Age	Benefit amount for region (Grade 1-1) (JPY per month)
0-2	20900
3 - 5	26350
6 - 11	34070
12 - 19	42080
20 - 40	40270
41 - 59	38180
60 - 69	36100
70	32340

- Household expenses (Category 2) are related to the number of family members:

Number of family members	1	2	3	4 + X
Basic amount (in JPY per month)	43430	48070	53290	55160+ 440 X

The maximum amount of livelihood assistance is calculated by adding together the amounts in Category 1 for each family member and the amounts in Category 2.

A housing aid is also available.

Number of family members	1	2-	7-
Basic amount (in JPY per month)	53700	69800	83800

4.2.1.1 Irregular additional payments

Winter supplementary assistance (in Tokyo, in JPY per month) is provided 5 months in a year (from November to March).

	year	1 person	2	3	4	5 and more amount to add per 1 increase
13	2001	3,130	4,060	4,840	5,490	200
14	2002	3,130	4,060	4,840	5,490	200
15	2003	3,090	4,010	4,780	5,420	200
16	2004	3,090	4,000	4,770	5,410	200
17	2005	3,090	4,000	4,770	5,410	200
18	2006	3,090	4,000	4,770	5,410	200
19	2007	3,090	4,000	4,770	5,410	200

20	2008	3,090	4,000	4,770	5,410	200
21	2009	3,090	4,000	4,770	5,410	200

Child additional aids are available:

For the first and the second child	For children under 3 years of age.	10,000 yen/ month
	For children aged 3-12 years old (until March 31 st after their 12 th birthday).	5,000yen /month
For the third and subsequent children	For children who have not finished elementary school.	10,000yen/month

Lone-parent additional aids are available:

one child 15510 per month

2 children 16740 per month

3 and more children $16740 + 630 * (n-2)$ per month

* n= the number of children

* For children before the first March 31st after the children reach 15 years of age, and for children who have not reached 20 years of age that can accept disabled additional aids.

4.2.2 *Income and earnings disregards*

Earnings net of tax and social security contributions up to JPY 8 340 per month are disregarded. From this level, social assistance is reduced by earnings net of tax and social security contributions exceeding a threshold which increases with earnings. The monthly disregard is assumed to increase proportionally with gross earnings. The monthly amounts are as follows for the same region (Grade 1-1) as for personal expenses:

Monthly gross earnings X (JPY)	Monthly threshold Y (JPY)
--------------------------------	---------------------------

0 – 8 340	0 – 8 340
8 340 – 92 000	8 340 – 22 570
92 000 – 240000	22 570 – 33190
240000+	33190

4.3 Tax treatment of benefit and interaction with other benefit

Tax treatment of benefit : Not taxable.

Interaction with other benefits : None.

4.4 Benefit duration

As long as the conditions are fulfilled.

4.5 Treatment of particular group

None.

4.5.1 Young persons

4.5.2 Older workers

4.5.3 Others if applicable

Housing benefits

None.

5.1 Conditions for receipt

5.2 Calculation of benefit amount

5.2.1 Calculation of gross benefit

5.2.2 *Income and earnings disregards*

5.3 *Tax treatment of benefit and interaction with other benefits*

5.4 *Treatment of particular groups*

5.4.1 *Young persons*

5.4.2 *Older workers*

5.4.3 *Others if applicable*

[e.g. lone parents, immigrants, part-time employees, self-employed, disabled]

6. **Family benefits**

6.1 *Conditions for receipt*

The benefit is income-tested. It is paid for a child before elementary school graduating.

6.2 *Calculation of benefit amount*

6.2.1 *Calculation of gross benefit*

From 1 April 2007, JPY10 000(per month) under the age of three, and JPY 5 000(per month) for the first and second child from the age of three until the first march after the age of twelve and JPY 10 000(per month) for the third and subsequence children from the age of three until the first March after the age of twelve.

6.2.2 *Income and earnings disregards*

Gross annual income(※) minus the employment income deduction (see section 10) must be lower than JPY 4.6 million (JPY 5.32 million for employees), plus JPY 380 000 per dependent, to be eligible for the benefit.

(※) = income of the person who mainly supports children eligible for the benefit.

(ex. income of either parents whose income is higher than the other)

6.3 Tax treatment of benefit and interaction with other benefits

Tax treatment of benefit : Not taxable.

Interaction with other benefits : None

6.4 Treatment of particular groups

As long as the conditions are fulfilled.

6.4.1 Young persons

None.

6.4.2 Older workers

None.

6.4.3 Others if applicable

[e.g. lone parents, immigrants, part-time employees, self-employed, disabled]

None.

7. Childcare for pre-school children

Day-care centres are available for the children whose parents are unable to look after their children because of work, illnesses, etc. The children who are in that condition can use day-care centres from 0 to 6 years old before entering elementary schools. In Japan, compulsory schooling starts in April after children become 6 years old.

7.1 Out-of-pocket childcare fees paid by parents

The amount of the payment of each user varies each other because the fee for day care is calculated according to parents' previous income tax or municipal tax. But total cost for full-time formal centre-based care is covered not only with the fees paid by parents working 40 hours per week. Public sector including the nation bears about 60 % of the cost.

The fees for day care depend on parents' previous income tax or municipal tax. The nation presents the standard classification of accounts that shows the fees for day care. (see the list held at section 7.2.2.1.) Each municipal government configures the fee according to the list.

Childcare fees are not tax deductive, but they are exempt from the fees when they are eligible to social assistance under Public Assistance Law.

7.2 Child-care benefits

There are no child-care benefits, but a system of mainly income related child-care costs exists.

7.2.1 Conditions for application

They can apply to use day-care centres if they have preschool children and are in the condition not to be able to care their children due to work, illness and so on. The cost is income related: it increases with local and central income tax (see tax system in section 10)

7.2.2 Calculation of benefit amount

7.2.2.1 Calculation of gross benefit

Municipal child-care is available. The following is used as the standard for calculating the amount of government subsidy to each municipality. The more income tax a family pays, the bigger the contribution to the child-care costs:

Standard child-care cost per child (JPY per month)

Category*	Income tax position (JPY per year)	Age of child (in years)	
		< 3	3 <
1	Eligible to social assistance	0	0
2	No local tax	9 000	6 000
3	Local tax	19 500	16 500
	Central tax		
4	- 72000	30 000	Actual cost (< 27 000)
5	72000 - 180000	44 500	Actual cost (< 41 500)
6	180000 - 459000	61 000	Actual cost (< 58 000)
7	459000 +	Actual cost (< 80 000)	Actual cost (< 77 000)

* Categories 2, 3 exclude cases which fall into categories 1, 4-7.
Categories 4-7 exclude cases which fall into category 1.

7.2.2.2 Income and earnings disregards

Local and central income tax are taken into consideration, there are no disregards.

7.2.3 Tax treatment of benefit and interaction with other benefits

The implicit benefit is not taxable.

It isn't charged consumption tax to enjoy the services of formal day-care centres. And using a day-care centre has no interaction with other benefits.

7.2.4 *Treatment of particular groups*

A child of a single parent is taken into consideration to be given priority for entering a day-care centre. A child of a family needed a special assistance is also given priority consideration.

8. Employment-conditional benefits

Re-employment allowance (see section 2.4).

Note that removal expenses are provided for persons who have to move after having obtained a job or a training introduced by the Public Employment Security Office.

8.1 Conditions for receipt

Re-employment allowance is paid to an unemployment benefit recipient, whose remaining duration of basic allowance of unemployment benefit is one-third or more of the prescribed duration of benefit and 45 days or more, and who takes up steady employment or starts his/her own job.

8.2 Calculation of benefit amount

8.2.1 Calculation of gross benefit

The amount of re-employment allowance is equal to the remaining unemployment benefit period $\times$ 0.3 $\times$ the daily amount of basic allowance of unemployment benefit.

8.3 Tax treatment of benefit and interaction with other benefits

Re-employment allowance is not taxable.

8.4 Benefit duration

Re-employment allowance is paid as a lump sum.

8.5 Treatment of particular group

None.

8.5.1 *Young persons*

8.5.2 *Older workers*

8.5.3 *Others if applicable*

9. Lone-parent benefits

9.1 Conditions for receipt

To be a lone parent, and to have a child who has not yet reached his/her 18th birthday by 31 March of the given year.

9.2 Calculation of benefit amount

9.2.1 Calculation of gross benefit

Number of children	1	2 + X
Basic amount (in JPY per month)	41720	46 720+ 3 000 X

9.2.2 Income and earnings disregards

Means-tested.

Gross annual income minus the employment income deduction (see section 10) minus JPY 80 000 - the Income-tested thresholds are based on the number of dependents.

For female lone parents and fosterers (*) whose earnings of the previous year were less than JPY 1.30 million, monthly allowance is granted of JPY 41 720 in case of one child, JPY 46 720 in case of two children, and for third child and up additional JPY 3 000 for each child. For such persons(**) whose earnings of the previous year were more than JPY 1.30 million but less than JPY 3.65 million, monthly allowance is reduced between JPY 10 and 31,870 according to income.

* fosterers : persons who foster children(live with them, look after them and make their living) ,in case they have no mothers or their mothers don't look after them.

* * such persons : female lone parents and fosterers (in the first sentence)

If the income of the previous year exceeds JPY 3.65 million , the allowance of the year will not be paid.

Monthly allowance=(Annual earnings JPY –JPY 1,300,000)*0.0184162 + JPY 10

9.3 Tax treatment of benefit and interaction with other benefits

Not taxable.

9.4 Benefit duration

As long as the conditions are fulfilled.

9.5 Treatment of particular groups

None.

9.5.1 Young persons

None.

9.5.2 Older workers

None.

9.5.3 Others if applicable

[e.g. immigrants, part-time employees, self-employed, disabled]

None.

10. Tax system

10.1 Income tax rate schedule

10.1.1 Tax allowances and credits for central government income tax

There are no tax credits. The tax allowances are as follows:

- *Basic allowance:* a taxpayer may deduct JPY 380 000 as basic allowance from his or her income
- *Allowance for spouse:* allowance equal to JPY 380 000 is given to a resident taxpayer who has a spouse, provided certain requirements are met
- *Allowance for dependents:* if a resident taxpayer has children and other relatives who meet the same requirements as for a spouse mentioned above, an allowance of JPY 380 000 is given for each dependent
- *Special allowance for dependents:* if a resident taxpayer has dependents who meet the requirement mentioned above and who are between 16 and 22 years old, an allowance of JPY 630 000 is given for each dependent instead of the allowances for dependents mentioned above.

- *Deduction for social insurance premiums:* the amount of social insurance premiums for a resident taxpayer or his/her dependents shall be deducted from his/her income without any ceiling
- *Employment income deduction:* the following amounts may be deducted from employment income in calculating taxable income:
 - If gross employment income does not exceed JPY 1 800 000 the deduction is 40 per cent of salaries etcetera, but the minimum amount deductible is JPY 650 000.
 - If gross employment income exceeds JPY 1 800 000, but not JPY 3 600 000, the deduction is JPY 180 000 plus 30 per cent of salaries.
 - If gross employment income exceeds JPY 3 600 000, but not JPY 6 600 000, the deduction is JPY 540 000 plus 20 per cent of salaries.
 - If gross employment income exceeds JPY 6 600 000, but not JPY 10 000 000, the deduction is JPY 1 200 000 plus 10 per cent of salaries.
 - If gross employment income exceeds JPY 10 000 000, the deduction is JPY 1 700 000 plus 5 per cent of salaries.

10.1.1.1 Standard allowances

10.1.1.2 Standard tax credits

10.1.2 Income tax schedule

Taxable Income (JPY) (*)		Tax Rate (%)	Deductible Amounts for Each Bracket (JPY)
Over	Not over		
	1 950 000	5	--
1 950 000	3 300 000	10	97 500
3 300 000	6 950 000	20	427 500
6 950 000	9 000 000	23	636 000
9 000 000	18 000 000	33	1 536 000
18 000 000		40	2 796 000

(*) The fraction of taxable income that is less than JPY 1 000 is rounded down.

Tax liability is obtained by multiplying the taxable income by tax rate (A) and deducting the amount (B). For example, income tax due on taxable income of JPY 7 million is:

$$7\,000\,000 \times 0.23 \text{ (A)} - 636\,000 \text{ (B)} = \text{JPY } 974\,000.$$

For example, income tax due on taxable income of JPY 7 million is:

$$7\,000\,000 \times 0.20 \text{ (A)} - 330\,000 \text{ (B)} - 214\,000 \text{ (C)} = \text{JPY } 856\,000.$$

10.1.3 State and local income taxes

10.1.3.1. General description of the system

State and local income taxes in Japan consist of prefectural inhabitants tax levied by prefectures and municipal inhabitants tax levied by cities, towns and villages. The prefectural inhabitants tax is collected together with the municipal inhabitants tax by cities, towns and villages.

10.1.3.2. Tax base

The base for prefectural and municipal inhabitants' taxes is taxable income augmented by a fixed per capita amount. The taxable income is similar to the one computed for the purpose of the previous year's national income tax (see below).

Note: Calculation of income for local inhabitants' taxes is slightly different from the one for the national income tax. For example, the amount of Basic Allowance, Allowance for Spouse, Allowance for Dependents is JPY 330 000, the amount of Special Allowance for dependants is JPY 450 000, etc.

10.1.3.3. Tax rate

- The standard fixed (annual) per-capita amount of Prefectural inhabitants' tax is JPY 1 000
- The standard fixed (annual) per-capita amount of Municipal inhabitants' tax is JPY 3 000
- The standard rate of Prefectural and Municipal inhabitants' tax is proportionally 10% (Prefectural inhabitants' tax 4%, Municipal inhabitants' tax 6%). (*)
- (*) The state and local tax rate and the central government income tax rate were changed by the FY2006 tax reform. Also a new local income tax credit regime was introduced in order to alleviate the tax burden increase arising from the changes in the tax rates and in order to mitigate any increase in the tax burden arising from the difference between the personal reliefs (Basic Allowance, Allowance for Spouse, Allowance for Dependents, Special Allowance for dependents, etc.) for national income tax purposes and for inhabitant tax purposes.

taxable income for local income tax purposes	the tax credit
---	----------------

JPY 2 000 000 or less	5 per cent of the minimum of the difference between taxable income for local income tax purposes and national income tax purposes and taxable income for local income tax purposes
more than JPY 2 000 000	((taxable income for local income tax purposes – taxable income for national income tax purposes) – (taxable income for local income tax purposes – JPY 2 000 000)) * 5%. The minimum credit is JPY 2 500

•

10.2 *Treatment of family income*

The tax unit is the individual, couples are taxed separately.

Social security contribution schedule

10.3.1 *Employees' contributions*

- Pension: 7.38 per cent of gross earnings up to JPY 620000(monthly).
- Sickness: 4.1 per cent of gross earnings up to JPY 1 210 000(monthly).
- Unemployment: 0.6 per cent of gross earnings decreased from 0.8 percent to 0.6 percent as from 1 April, 2007).

10.3.2 *Employers' contributions*

- Pension: 7.321 per cent of gross earnings up to JPY 620000(monthly).
- Sickness: 4.1 per cent of gross earnings up to JPY 1 210 000(monthly).

Unemployment: 0.9 per cent of gross earnings (decreased from 1.15 percent to 0.9 percent as from 1 April, 2007).

10.3.3 *Work injury*

0.45 per cent to 11.8 per cent of total remuneration, the contribution rate depending on each industry's accident rate over the last three years and other factors. There are twenty-eight rates for fifty-four industrial categories at present.

10.3.4 *Family allowance*

0.13 per cent of total remuneration as from 1 April, 2007.

10.4 Treatment of particular group

10.4.1 Young persons

10.4.2 Older workers

10.4.3 Others if applicable

[e.g. **part-time employees**]

11. Part-time work

11.1 Benefit rules for part-time work

Minimum of 12 months of insured work in the last 24 months (with minimum 20 hours of work per week and minimum 11 days of work per month) to be eligible for unemployment benefits.

11.2 Special tax and social security contribution rules for part-time work

None.

12 Policy developments

12.1 Policy changes introduced during the previous year

The system of “Centre for Early Childhood Education and Care” started in October, 2006.

Kindergartens, day-care centres, and other facilities that fulfil following functions and meet certain standards are certified as “centre for early Childhood education and care” by each prefectural government.

1. A function that provides preschool children with the early childhood education and day care
(The function of accepting children whether their parents (guardians) work or not and providing both education and day care in an integrated manner)
1. 2. A function that supports child-rearing in a community
(The function of providing consultation on child-rearing anxieties and offering parent-child gathering places to all families that are rearing children)

As part of the FY 2005 tax reform, the rate of the reduction was reduced from 20 per cent to 10 per cent (local inhabitants' tax: from 15 per cent to 7.5 per cent), the ceiling was reduced from JPY 250 000 to JPY 125 000 (local inhabitants' tax from JPY 40 000 to JPY 20 000) from 2006 (local inhabitants' tax: FY 2006). And as part of the FY 2006 tax reform, the reduction was abolished from 2007 (local inhabitants' tax: FY 2007).

As part of the FY 2006 tax reform, the progressive rate structure of national income tax was reformed into 6 brackets structure with tax rates ranging from 5% to 40%, and the rate of local inhabitants' tax will be proportionally 10%.

Eligible age for transfers for dependant children was raised from three to six from 1 June 2001, from six to nine from 1 April 2004 and from nine to twelve from 1 April 2006. It has been doubled to JPY 10 000 for the first and second child under the age of three as from 1 April, 2007.

12.2 *Policy changes announced*

Employment insurance system

(1) Basic allowance

To a generally insured person who has lost his/her job, the basic allowance is paid once every 4 weeks after his/her being recognized as unemployed at the relevant public employment security office if his/her insured period in two years preceding the day of separation from employment is equal to or more than 12 months (or 6 months in a year preceding the day separation from employment in the case of separation due to bankruptcy and dismissal). (from 1st October 2007)

(2) Childcare leave benefits

An amount equivalent to 40% of the person's wages before the leave (30% is paid during the leave and the amount equivalent to 20% will be paid if the recipient is employed as an insured for 6 months after his or her childcare leave) (Note)

(Note) The benefits rate after return to employment has been raised to 20% temporarily to persons who were employed after his or her childcare leave on 31st March 2007 onward or who have started or start his /her childcare leave by 31st March 2010. (The total benefits rate shall be 50% provisionally.)
