1. Overview of the system

The tax benefit system is largely a unified, national system. Contributory unemployment insurance can be paid for maximal 365 days in a period of 24 months. A social assistance (Revenu Minimum Garanti) is available only for people aged over 25 or for families with children. These social assistance recipients can also receive a housing aid. Universal family benefits are paid to families with dependent children. The tax system is progressive and based on the family income.

1.1. Average worker wage (AW)

The 2015 AW earnings level is EUR 55 553.67¹.

1. AW refers to the Average Wage estimated by the Centre for Tax Policy and Administration (www.oecd.org/ctp). For more information on methodology see *Taxing Wages 2009-2010*, OECD, 2011, part IV.

SM fait référence au Salaire Moyen estimé par le Centre de politique et d'administration fiscales (<http://www.oecd.org/ctp>). Pour plus d'informations sur la méthodologie, consulter *Les impôts sur les salaires 2009-2010*, OCDE, 2011, partie IV.

2.1 Conditions for receipt

The claimant has to be registered at the employment exchange (ADEM, “Agence pour le développement de l’emploi”), and to be available and fit for work. It is available for people aged between 16 and 64. Moreover, the claimant needs to be resident in Luxembourg.

The loss of the job must be involuntary.

2.1.1 Employment conditions

The claimant must have been employed for 26 weeks in the 12 months preceding unemployment at least for 16 hours a week.

If rights to unemployment benefits are exhausted, right opens once again after a period of 12 months which follows the end of rights if the condition of 26 weeks employment in that period is once again fulfilled.

2.1.2 Contribution conditions

The claimant must have been employed for 26 weeks in the 12 months preceding unemployment.

2.2 Calculation of benefit amount

2.2.1 Calculation of gross benefit

A benefit of 80% of the average wage during the three months immediately preceding unemployment is increased to 85% if the beneficiary has dependent children. The maximum benefit level amounts to 250% of the social minimum reference salary for the first nine months, 200% afterwards (this was temporarily increased from 6 months beginning 17 August 2010 and until 31st December 2015). The social minimum reference salary is EUR 1922,96 per month as of 1st July 2015 (EUR 23 075,52 for the year 2015).

2.2.2 Income and earnings disregards

The benefit is not income tested any more.

Income from accessory work is compatible with the unemployment benefit as long as it does not exceed 10% of reference salary (3 months are taken for reference salary computation). If the income is higher than 10% of reference salary, the amount in excess is deducted from the benefit.

2.3 Tax treatment of benefit

Unemployment benefits are taxable. The tax base is the same as that for earned income, including the work related expenses allowance. Social contributions are due for health care, long term care and for pensions (old age, disability and survivors) (see section 10.3).

2.4 *Benefit duration*

The benefit is allocated during an equivalent period of time (calculated in months) as the working period fulfilled during the reference period taking in account for opening the right to unemployment allowance. The maximum benefit period is 365 calendar days in a 24-month period. The benefit is paid from the first day of unemployment; there is no waiting period. There may be prolongations for particular groups.

2.5 *Treatment of particular groups*

2.5.1 *Young persons*

Unemployed aged below 21 with completed education or less than 26 working weeks in the last 12 months are eligible for a benefit amounting up to 70% of the minimum wage. The benefit for unemployed without completed education under 18 years of age (16-17 years) is 40% of the minimum reference wage. The benefit is payable for 365 days (7 days per week) after a waiting period of 26 weeks (completed education period of 9 years at least) or 39 weeks. The minimum reference wage for workers was EUR 1 922,96 per month as of 1st July 2015.

2.5.2 *Older workers*

Unemployed 50 years old and more qualify for prolongation of the benefit period by 12, 9 or 6 months if the contribution period is 30, 25 or 20 years respectively (with a threshold of 150% of the minimum wage).

After 55 years of age, a prolongation of 6 months is granted without special conditions

Moreover, since 17th August 2010 and to the 31st December 2015, the following prolongations are possible:

- Unemployed aged 45 years and more, and having 20 years of affiliation at the social security system, qualify for a prolongation of 6 months.
- Unemployed aged less than 65 years, dismissed by a firm with partial unemployment benefits for at least 6 months at the moment of the dismissing, qualify for a prolongation of 6 months.

Unemployed aged less than 65 years who lost their job following the giving up of business of the employer (due to death, physical impairment, or bankruptcy), qualify for a prolongation of 6 months.

2.5.3 *Disabled workers*

Unemployed aged between 16 and 49 years old qualify for prolongation of the benefit period by 6 months if the degree of disability is 30% at least. After 50 years of age, the additional 6 months are granted if the person has a disability of 15% at least.

Reference date for all information is **July 1st 2015 unless otherwise stated.**

2.5.4 *Self-employed*

The main element is the *Guaranteed Minimum Income* (RMG, guaranteed minimum income). The RMG consists in granting

- either an “indemnité d’insertion” (integration benefit),
- or an “allocation complémentaire” (complementary benefit),
- or an “indemnité d’insertion” and an “allocation complémentaire”

4.1 *Conditions for receipt*

Each person aged between 25 and 60 years who is able to work full-time has to apply for an “indemnité d’insertion”. The “indemnité d’insertion” is a gross income either paid for

- the preparation and assisted search for a paid work,
- community service work in the public sector,
- a professional training in the private sector.

People raising children, in charge of a dependent person or unable to work full-time may benefit of a reduction of the working hours.

The “allocation complémentaire” is intended to complete the difference between the maximum of the RMG due according to the family type (see section 4.2.1.) and the gross income of the family.

4.2 *Calculation of benefit amount*

4.2.1 *Calculation of gross benefit*

The gross amount of the “indemnité d’insertion” is equivalent to the hourly rate of the minimum wage multiplied by the number of hours the person has to supply. The minimum wage as of 1st July 2015 is EUR 1922,96 per month, for a full-time job (40 hours a week/173 hours a month).

The amount of the “allocation complémentaire” is the difference between the RMG below and the amount defined in section 4.2.2.

Family type	RMG (EUR per month)	Percentage of first adult payment
	1 July 2015	
First adult	1 348,18	100
Second adult	674,09	50
Supplementary adult	385,73	28,6
Child supplement	122,56	9,1

4.2.1.1 *Additional payments*

The National Solidarity Fund (Fonds National de Solidarité) will grant on demand for the year 2015 an “allocation de vie chère” for every resident in Luxembourg with limited income, as long as the annual gross income of the family type does not exceed the limits fixed below . The annual gross income limits for 2015 are fixed as:

Family with	Global annual	Augmentation per indice courant au	Global annual
-------------	---------------	------------------------------------	---------------

	revenu n.i. 100	person	01.01.2015	revenu
1 person	2 988		7,7517	23162,08
2 persons	4482	1 494	7,7517	34743.12
3 persons	5378.40	896,40	7,7517	41691.74
4 persons	6274.8	896,40	7,7517	48640.36
5 persons	7171.2	896,40	7,7517	55588.98
6 persons	8067.6	896,40	7,7517	62537.60

9 persons	10756.8	896,40	7,7517	83383.46
10 persons	11653.2	896,40	7,7517	90332.08

Est considéré comme revenu annuel global l'ensemble des revenus bruts annuels dont le demandeur seul ou la communauté domestique demanderesse a disposé pour l'année de calendrier précédant l'année au cours de laquelle l'allocation est demandée. Sont notamment à déclarer:

- le revenu provenant d'un travail régulier ou généralement d'une activité professionnelle quelconque, à l'exception toutefois des indemnités et salaires promérités par des enfants ouvrant droit à des allocations familiales ;
- les revenus de remplacement dus au titre de la législation luxembourgeoise ou étrangère ;
- les revenus de biens mobiliers et immobiliers ;
- les rentes et pensions ;
- les allocations ou prestations touchées de la part d'un organisme public ou privé ;
- les pensions alimentaires.

The "Allocation de vie chère" for 2015 is fixed as:

- 1 320 EUR for a single person
- 1 650 EUR for a family type of 2 persons
- 1 980 EUR for a family type of 3 persons
- 2 310 EUR for a family type of 4 persons
- 2 640 EUR for a family type of 5 persons and more.

In case the above gross income limit is exceeded, the benefit of a reduced allowance is possible.

The monthly gross income limits for 2015 for the reduced "allocation de vie chère" are fixed as:

for a single person	1930,18 – 2 040,16 €
for a family type of 2 persons	2 895,27 – 3 032,75 €
for a family type of 3 persons	3 474,32 – 3 639,30 €
for a family type of 4 persons	4 053,37 – 4 245,85 €

for a family type of 5 persons	4 632,43 – 4 852,41 €
for a family type of 6 persons	5 211,48 – 5 431,46 €
for a family type of 7 persons	5 790,53 – 6 010,51 €
for a family type of 8 persons	6 369,58 – 6 589,56 €
for a family type of 9 persons	6 948,63 – 7 168,61 €
for a family type of 10 persons	7 527,69 – 7 747,67 €

Calculation method:

The allowance will be reduced by the equivalent amount exceeding the fixed income limits.

Example:

Yearly allowance for 1 person: 1 320/(12) EUR = 110 EUR monthly allowance.

Monthly gross income: 1 950 EUR (1 950 – 1 930,18 = 19,82)

Reduced monthly allowance will be: 110 – 19,82 = 90,18

Reduced allowance for 2015 will be 1 082,16 EUR (90,18* 12 = 1 082,16)

The “allocation de vie chère” allowance is tax free, sickness contribution free and long term care contribution free.

4.2.1.2 *Obligations of family members*

There is no such obligation.

4.2.2 *Income and earnings disregards*

Gross income from whatever source is included in the income test, but an amount of 30% of the RMG by family type is disregarded. Family benefits are not considered as income for the social assistance means test.

In practice 130% of RMG (according to family type) is the income test limit. The “allocation complémentaire” which is a complement to the personal gross income is due as long as a person is eligible for granting for the RMG. No assistance is paid once the 130% limit is passed.

4.3 *Tax treatment of benefit*

Taxable. Full social security contributions are payable with the “indemnité d’insertion” whereas for the “allocation complémentaire” and the RPGH, in general only the sickness contributions and long term care contributions are payable. Pensions contributions are paid by the “Fonds national de solidarité” for those beneficiaries of an “allocation complémentaire” who have already a period of insurance of at least 25 years in the general

pension scheme. The difference between the social minimum reference salary and the beneficiary's professional income is the taxes base.

4.4 *Benefit duration*

The “allocation complémentaire” stops as soon as gross income of the household exceeds 130% of RMG.

The contract of the “indemnité d’insertion” is not renewed if gross income exceeds 130% of RMG.

4.5 *Treatment of particular groups*

4.5.1 *Young persons*

People under 25 do not qualify for RMG unless they have dependent children, are responsible for a dependent person or unable to work.

4.5.2 *Older workers*

Old age workers over 60 years do not need to be available for the labour market any longer. Their revenue is totally based on the “allocation complémentaire”.

4.5.3 *Other groups, including disabled*

Disabled persons can opt for the RMG or for another social assistance program, which follows similar rules as the RMG and which is called RPGH (=“revenu pour personnes gravement handicapées”). It has the following conditions of receipt:

- être âgée de 18 ans au moins
- présenter une diminution de la capacité de travail de 30 % au moins par suite d’une déficience physique, mentale, sensorielle ou psychique ; la déficience doit être acquise avant l’âge de 65 ans
- présenter un état de santé tel qu’il s’avère impossible d’adapter un poste de travail dans le milieu ordinaire ou protégé à ses besoins
- avoir l’autorisation de résider au Luxembourg, y être domiciliée et y résider effectivement. Par ailleurs, les ressortissants non communautaires doivent se prévaloir d’un séjour légal de 5 ans au cours des vingt dernières années.

The revenues of the person are considered as follows: Sont considérés comme revenus pour déterminer la prestation, les revenus professionnels et les revenus de remplacement dont bénéficie le titulaire dans le cadre de la législation luxembourgeoise ou étrangère. Ces

6.1 Conditions for receipt

Family benefits are paid only to families with dependent children under 18 (or under 27 if still in secondary education (“secondaire classique” and “secondaire technique”); higher education, such as university studies, are excluded since 2010).

6.2 *Calculation of benefit amount*

6.2.2 *Allocation de rentrée scolaire*

Luxembourg also pays a schooling expense allowance in August of each year for all children aged six and older. The level of the allowance varies according to the number of children in the household.

For one child over age six, the allowance is 113,15 EUR and 161,67 EUR for a child age 12 or older.

For two children, the allowance is 194,02 EUR for a child 6-12 years old and 242,47 EUR for a child 12 or older.

In families with three or more children, 274,82 EUR is paid for each child 6-12 years, and 323,34 EUR for each child over age 12.

- Couple avec 1 enfant de 4 ans: 0 EUR
- Couple avec 1 enfant de 8 ans: 113,15 EUR

6.2.3 *Income and earnings disregards*

Not means-tested.

6.3 *Tax treatment of benefit*

Family benefits are not taxable.

6.3.1 “*Boni pour enfant*”

A partir de 2008, chaque famille soumise à l'impôt au Luxembourg qui est bénéficiaire d'allocations familiales a droit à une nouvelle prestation, appelée "boni pour enfant". Le boni représente une "*bonification d'office*", en d'autres termes une attribution automatique, sous forme de prestation, de la modération d'impôt pour enfant, déduite jusqu'ici de l'impôt à payer, et a le double caractère d'une mesure fiscale et d'une prestation familiale. Il est également attribué aux familles qui n'ont pas pu profiter de la modération d'impôt dans le passé (voir 10.1.1. Children tax credit). En 2008, le boni est versé en une seule fois pour toute l'année. Le montant est fixé à 922,50 Euro par enfant. A partir du mois de janvier 2009, le boni pour enfants est versé mensuellement. Le montant mensuel est fixé pour chaque enfant bénéficiaire d'allocations familiales à 76,88 EUR. Avec l'introduction du versement mensuel, le boni est désormais versé exclusivement pour les mois pour lesquels un droit aux allocations familiales est ouvert. Ainsi, en pratique, le critère principal pour l'obtention du boni pour enfants est l'attribution des allocations familiales. Le boni pour enfants devient donc, à partir de 2009, une prestation familiale, et perd son caractère de mesure fiscale. Le montant ainsi que la périodicité sont inchangés depuis 2011.

6.4 *Treatment of particular groups, including disabled*

Disabled children can get the « allocation spéciale supplémentaire », which amounts to 185,60 EUR/month, and which is added to the family benefits.

7. Garde d'enfant pour les enfants d'âge préscolaire / Childcare for pre-school children

7.1 Education précoce

L'école est obligatoire à partir de 4 ans. L'Éducation précoce est destinée aux élèves ayant atteint l'âge de 3 ans. L'encadrement des élèves est assuré par une équipe pédagogique et éducative comprenant un/une instituteur/institutrice de l'éducation préscolaire ainsi qu'un deuxième intervenant (généralement un/une éducateur/éducatrice).

L'introduction de l'Éducation précoce, instaurée en 1998, était progressive jusqu'à la rentrée scolaire 2009/2010. À partir de cette date elle est obligatoire pour chaque commune, l'inscription des élèves restant toutefois facultative pour les parents.

Au cours de l'année 2014/2015, le nombre total des groupes dans l'Éducation précoce s'élevait à 221 avec un total de 4045 élèves (enseignement public). Il s'agit des élèves ayant fréquenté l'éducation précoce dès le début de l'année scolaire, ainsi que des élèves qui sont entrés au cours de l'année scolaire. L'effectif moyen par groupe s'élevait en 2014/2015 à 18,3 élèves. À noter cependant que selon les plages de fréquentation hebdomadaires de l'enfant, les groupes-classes de l'éducation précoce sont souvent organisés en sous-groupes. Les écoles privées et internationales accueillaient en 2014/2015 297 élèves dans l'éducation précoce.

7.2 Garde d'enfants hors de l'école

7.2.1. Out-of-pocket childcare fees paid by parents

Rather than opting for an overall increase in family allowances for each child, the government introduced a measure called "childcare-service vouchers" (Chèque-service accueil – CSA) in March 2009. The service voucher is an allowance paid in kind rather than in cash and represents a new type of public benefit for children and their families.

The old system of fee determination has been replaced by the "childcare-service vouchers". The "childcare-service vouchers" scheme introduces the same criteria for all service providers as regards parents' financial contributions. Before its introduction, the criteria could vary from one municipality to another, from one service provider to another.

Childcare-service-voucher

The system aims at subsidizing parental financial contribution, encouraging access to non-formal services.

In 2014, childcare services are offered by approximately 1400 different providers such as:

- Childcare centres (publicly subsidized or not – "Services d'éducation et d'accueil" for children from 0-12)
- Child minders ("assistants parentaux")
- Holiday organisations
- Music schools in the communal sector,

- Sport associations

Children are eligible to child care vouchers if they are aged 0-12 or still in primary education. When the scheme was first implemented (March 2009), a condition of residence in Luxembourg was introduced. This condition has just been lifted for September 2016 (billed voted in February 2016).

Approximately 41 000 children of a prospective population of 80 000 benefit from the child care vouchers (take-up rate of 52%) in 2014. Parents wishing their children to benefit from the "childcare-service voucher" scheme need to register with their Commune.

In March 2009, when the scheme was first implemented, the child care cost was subsidized up to 7.50€ per hour (i.e. hour free of charge); the maximum number of hours subsidized was 60 hours per week. The extent of the subsidy varied according to the income of the household and the rank of the child among siblings eligible to family allowances.

In the context of budget consolidation measures, the government decided to modify the system in 2012, decreasing the maximum value of hourly subsidy (from 7.50€ to 6.00€) for settings in the private sector, and suppressing the three free hours per week for families with income higher than 3.5 times the minimum wage (see the Annex for more details on parents' contributions).

Children exposed to the risk of poverty and/or threatened by social exclusion are more specifically targeted by the scheme. The criteria for identifying children exposed to the risk of poverty are those living in households where there is a low level of income, excessive indebtedness, extraordinary costs, illness of one of the household members and the best interests of the child (principle stipulated by article 3 of the UN Convention on the Rights of the Child, 1989).

These children are entitled to a higher number of hours per week free of charge (respectively 25 or 15 instead of 3).

See detailed information in Annexe.

*7.2.2. Allocations de garde d'enfant pour les services de garde formel / Child-care benefits **for formal centre-based care***

Il n'existe pas d'allocations en espèces reçues par les parents dont les enfants sont inscrits dans un système de garde d'enfant.

7.3 Child care allowance for children not using child care centres

Children not using their service vouchers in child care centres can use them in music schools run by municipalities or in sport associations which has been delivered a special agreement by the Ministry of Sports.

Reference date for all information is **July 1st 2015 unless otherwise stated.**

Country chapter for OECD series *Benefits and Wages* (www.oecd.org/els/social/workincentives)

The income has now to be determined as only households with an income inferior to 3,5 times the minimum wage can benefit from service vouchers in the domains of sports and music.

8. Employment-conditional benefits

8.1 Parental leave, introduced from 1 January 1999.

8.1.1 Conditions of receipt

The Law of 12 February 1999 creates an individual (and non-transferable) entitlement to take six months full-time parental leave or 12 months half-time for any parent raising a child under five at home. The parent must have been working without interruption for at least 20 hours/week for the same employer in the year preceding the child's birth immediately. The employment contract is simply interrupted, with the worker returning to his job once the period of parental leave has elapsed.

8.1.2 Calculation of benefit amount

8.1.2.1 Calculation of gross benefit

- 100%: EUR 1 778,31 per month.
- 50%: EUR 889,15 per month.

8.1.2.2 Income and earnings disregards

None.

8.1.3 Tax treatment of benefit

- Not taxable. The sickness and the long term care contributions are payable whereas the old age contribution is financed by the State.

9. Lone-parent benefits

There are no lone parent benefits, but single-parents receive a refundable tax credit of EUR 750 per annum (see section 10).

10. Tax system

Luxembourg has a progressive tax scheme with 18 rates varying between 0 and 40 per cent since 2013. Tax calculation is based on the splitting method.

10.1 Income tax rate schedule

10.1.1 Tax allowances and credits

Tax allowances:

- Professional expenses are deductible with a minimum of EUR 540. This minimum is deductible by default if there are no greater expenses. For income from RMG (SA), the tax allowance on professional expenses amounts to EUR 300. Someone who is receiving SA and is working at the same time is eligible for the tax allowances of EUR 540 and 300. In this case, the total tax allowance amounts to EUR 840. However, the amount of each tax allowance cannot exceed the amount of the related income.
- Like other taxpayers, wage-earners having no special expenses (interest charges, insurance premiums or contributions other than for social security) may take a standard deduction of EUR 480 for special expenses. Social security contributions are deductible in their entirety, except long term care insurance.
- If both spouses have earned income and are taxed jointly, they qualify for an earned income allowance of EUR 4 500. The taxpayer obtains, on request, abatement on the taxable income for child care expenses (abatement for inevitable extraordinary charges). The amount of the abatement corresponds to the part of the extraordinary charges exceeding the following percentages of taxable income.

Taxable income (EUR per year)	Class 1	Class 1A or Class 2					
		Number of children					
		0	1	2	3	4	5
< 10 000	2%	0	0	0	0	0	0
10 000 – 20 000	4%	2%	0	0	0	0	0
20 000 – 30 000	6%	4%	2%	0	0	0	0
30 000 – 40 000	7%	6%	4%	2%	0	0	0
40 000 – 50 000	8%	7%	5%	3%	1%	0	0
50 000 – 60 000	9%	8%	6%	4%	2%	0	0
> 60 000	10%	9%	7%	5%	3%	1%	0

- The taxpayer can also obtain a standard abatement for childminding expenses of EUR 3 600 per year. In this case the taxpayer has to renounce to the abatement for inevitable extraordinary charges for child care expenses. The standard abatement cannot exceed the amount of the real expenses nor EUR 300 per month.

Tax credits:

- A tax credit of EUR 300 per annum for wage-earners, pensioners and those receiving taxable replacement incomes (including sickness, maternity and unemployment allowances).
- Single-parents receive tax credit of EUR 750 per annum.

10.1.2 *The definition of taxable income*

The definition depends on family type, see section 10.1.3.

Taxable income is rounded to the nearest lower multiple of EUR 50 before applying the tax schedule.

10.1.3 *The tax schedule*

Income tax is determined on the basis of the following schedule (amounts in EUR):

0 % for the portion of income less than	11 265		
8 % for the portion of income between	11 265,00	and	13 173,00
10 % for the portion of income between	13 173,00	and	15 081,00
12 % for the portion of income between	15 081,00	and	16 989,00
14 % for the portion of income between	16 989,00	and	18 897,00
16 % for the portion of income between	18 897,00	and	20 805,00
18 % for the portion of income between	20 805,00	and	22 713,00
20 % for the portion of income between	22 713,00	and	24 621,00
22 % for the portion of income between	24 621,00	and	26 529,00
24 % for the portion of income between	26 529,00	and	28 437,00
26 % for the portion of income between	28 437,00	and	30 345,00
28 % for the portion of income between	30 345,00	and	32 253,00
30 % for the portion of income between	32 253,00	and	34 161,00
32 % for the portion of income between	34 161,00	and	36 069,00
34 % for the portion of income between	36 069,00	and	37 977,00
36% for the portion of income between	37 977,00	and	39 885,00
38% for the portion of income between	39 885,00	and	41 793,00
39% for the portion of income between	41 793,00	and	100 000,00
40% for the portion of income exceeding	100 000,00		

- Single persons' taxable income (class 1) is taxed directly using the schedule.
- For couples taxable income is first halved. The tax liability is then calculated as for single persons, but the tax actually paid is double this amount (tax class 2).

- For widow(er)s, taxpayers with a dependent child allowance and persons over 64 years of age (class 1A), tax is calculated as follows: the schedule is applied to adjusted taxable income reduced by half of the difference between that amount and EUR 45 060, with the marginal tax rate capped at 40%.
- Income tax as determined by the applicable schedules is subject to a 7 % “solidarity” surtax to finance the unemployment insurance scheme. The rate is 9 % for the taxable income exceeding 150.000€ (tax classes 1 and 1a), respectively 300.000€ (tax class 2).

10.2 *Treatment of family income*

Spouses and partners are taxed jointly on their income.

10.3 *Social security contribution schedule*

Wage earners pay 3,05% sickness² scheme contributions and 8% pension scheme contributions on their gross earnings between EUR 1 922,96 per month (EUR 23 075,52 per year) and EUR 9 614,82 per month (EUR 115 377,84 per year). For replacement earnings, sickness insurance contribution rate is 2,80%. Long term care insurance is financed by

² **Unification of legal status of wage earners**

The generalization of the continued pay in case of sickness

From January 1st, 2009, the continuation of the wage is generalized to all private sector wage earners. It follows a model similar to that in effect for private employees before 2009: The average employer compensates the first thirteen weeks of sickness, health insurance intervening for the remaining compensation period.

Mechanism of the continued pay in case of sickness

On the one hand, the generalization of the continued pay in case of sickness increased the obligation of employers occupying former "manual workers". On the other hand, contributions paid by the former « manual workers » and their employers for the management of cash benefits for health insurance decreased.

The generalization of wage continuation leads to a reduction of the obligation of employers occupying former « private employees » and a rise of the contributions paid by former employees and their employers for the management of cash benefits for health insurance.

Creating an Employers' mutual insurance company and a "worker differential rate" (*différentiel ouvrier*)

To meet the sectoral imbalances in terms of absenteeism and guarantee a better distribution in the risk for the first 13 weeks to be financed by employers, a mutual insurance company is created. The institution is attached to the Social Security. It reimburses 80% of the amount of financial compensation payable by the employer. The Employers' mutual insurance company is financed by a contribution paid by employers. The contribution rate differs according to risk classes. In 2015:

Risk class	1	2	3	4
Financial absenteeism rate	<0,65%	<1,60%	<2,50%	>=2,50%
Contribution rate	0,51	1,32	1,94	3,04

A temporary budget balancing tax, the “impôt d'équilibre budgétaire temporaire” (IEBT), was introduced for the year 2015. The tax rate of 0.5% will be withheld on all categories of income (professional and replacement income and non-professional income, except on supplements for overtime) for all individuals affiliated to the Luxembourg social security system, less a deduction of the social minimum wage (Salaire social minimum). This measure was introduced for the tax years 2015 and 2016.

All employees and retirees in Luxembourg (with the exception of public officials) have to belong to the Chamber of Employees (“Chambre des salaires”) regardless of their nationality or place of residence. Annual dues are automatically withheld by the employer or by the Pension Insurance which allow the Chamber to carry out its various activities and missions. The contributions were fixed at EUR 31 between 2009 and 2015 for every employee who earns a gross monthly salary of EUR 300 or more and this contribution is included in the calculations. There are reduced contributions of EUR 10 for employees with lower levels of earnings and EUR 4 for apprentices. This non-tax compulsory employee payment is withheld by the employers jointly with the withholding tax on salaries.

3. From 2011 on, the accident insurance contribution rate is the same for all risk classes.

11.1 *Special benefit rules for part-time work*

Unemployment insurance benefits are reduced if part-time earnings exceed a certain percentage of the social minimum wage. Part of the earnings from part-time employment is disregarded in the social assistance means test for a period of 2 years.

12. Policy developments

12.1 Policy changes introduced: 2nd July 2014 – 1st July 2015

A temporary budget balancing tax, the “impôt d’équilibrage budgétaire temporaire” (IEBT), was introduced for the year 2015. The tax rate of 0.5% will be withheld on all categories of income (professional and replacement income and non-professional income, except on supplements for overtime) for all individuals affiliated to the Luxembourg social security system.

This measure was introduced for the tax years 2015 and 2016.

12.2 Policy changes introduced since 1st July 2015

Since 1.1.2016: the housing allowances in RMG or RPGH is replaced by the « Subvention de loyer » (Loi du 9 décembre 2015 portant introduction d'une subvention de loyer en faveur des ménages à faibles revenus).

ANNEXE

The tariff the parents have to pay is defined by law. It is based on the household taxable income, as certified by the most recent tax return or the last three months' payslips accompanied by a certificate confirming that the person concerned is not subject to any duty to submit a tax return or in the absence of these, any other document stating the current income. Equal consideration is given to couples, whether they are married or live in registered partnership. Siblings taken into account in order to determine the rank of the child are those eligible to family allowances.

The parents' financial contribution, meaning the rates per hour for childcare services are calculated following six different scales. There are 3 different categories of scales: public funded childcare centres, commercial childcare centres and parental assistants. The categories are then subdivided in a scale for non-solarized children and a scale for solarized children.

For example the scale for a public funded childcare centre for school children

Example:

The tariff per hour for a second child in a household earning EUR 4 500/month (i.e. with an income smaller than 2.5 minimum wage) will be as follows:

- 3 first hours/week are free of charge
- 4-24 hours/week: EUR 1,10 (Service voucher tariff)
- 25-60 hours/week: EUR 1,80 (Socio-family tariff)
- >60 hours: EUR 7,5 (full tariff)
- Main meal: EUR 1,50

Any credit for hours per week cannot be carried forward from one week to another.

Children exposed to the risk of poverty and/or threatened by social exclusion are more specifically targeted by the child care voucher scheme. They are entitled to a higher number of hours free of charge.

Methods of identification are as follows:

- initiative from a request for intervention by the relevant local Commune, school, a psycho-socio, socio-educational or medical-social department, general practitioner, parents or legal guardians, or from the child themselves
- favourable opinion of a psycho-social, socio-educational or medical-social department
- motivation and documentation of the relevant decision

ANNEX

DEFINITION OF SOCIAL SECURITY CONTRIBUTIONS AND PAYROLL TAXES.

The following text has been adapted from Annex A of the OECD *Revenue Statistics*.

Social security contributions to general government

Classified here are all compulsory payments that confer an entitlement to receive a (contingent) future social benefit. Such payments are usually earmarked to finance social benefits and are often paid to institutions of general government that provide such benefits. However, such earmarking is not part of the definition of social security contributions and is not required for a tax to be classified here. Examples of taxes classified here are the United Kingdom national insurance surcharge (introduced in 1977), the Swedish payroll tax (1969-1979), and the Austrian Contribution to the Family Burden Equalisation Fund and Community Tax.
